Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).
Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.
E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

T1 Horse Chestnut, remove dead wood, reduce crown by 20% and reduce 3 lower limbs overhanging the road by 2 metres.
T2 Acacia, sever ivy, remove dead wood, reduce height by 2 metres
T3 Horse Chestnut reduce 3 lower limbs by 3 metres, crown thin 20% and remove dead wood
T4 Horse Chestnut, reduce crown by 5 metres (pollarding) due to poor condition of tree
T5 Horse Chestnut sever ivy, crown thin by 20% remove dead wood
T6 Group of Lime trees (9 trees) along fence boundary, reduce recent growth back to previous cuts
All works required for routine tree maintenance. Limb reductions required for continued road safety. All works will maintain amentity value. We will abide by the Wildlife and Countryside Act and stop works immediately if any bats or birds are resident
