SECT7	Requiring Good Design
XD2	Hse Extns,Replacement Dwells,Outbuilding
XD3	Protecting Living Conditions
XHE1	Designated Heritage Assets

2.0 Site History

2.1 None relevant.

3.0 Representations

3.1 **Local Residents** - No representations received.

4.0 Planning Considerations

4.1 Site & Surroundings

4.1.1 This semi-detached property is located on the northern side of the road and to the east of the junction with Rushby Mead.
It is located within the Letchworth Conservation Area.

4.2 Proposal

4.2.1 The application seeks permission for single storey rear addition 6m wide by 3.9m deep to form additional living space and a WC. The addition would involve the removal of a conservatory, 2.3m in depth and 6m in width. The addition has been amended to comply with requirements from the Heritage Foundation and would have a flat roof containing one large roof lights

and a side window to match the pattern of existing windows. Materials would match the parent building. **See Amended plans in Anite.**

4.3 **Key Issues**

4.3.1 The main issues associated with the application relate to the objectives of Policy 28 of the current local plan and the impact of the development upon the amenities of local residents and upon the character and appearance of this part of Hillshott and the Letchworth Conservation Area.

4.3.2 Firstly I can see no material objections to the proposed extension which replaces an existing structure here but at a greater depth. The addition would not be detrimental to either the street scene or have any adverse impact upon any neighbouring amenity due to the single storey design, location to the rear, orientation of the site and relationship to adjoining properties. Consequently I am satisfied that the addition would comply with the provisions of the current development plan.

4.2.3 The design has been amended as a result of requirements from the Heritage Foundation and alteration to a flat roof would not impact negatively on the property given its age and style. The rear of the site is not visible given boundary treatment and landscaping. I am satisfied that the design in this location is acceptable and would not be visible in the street scene.

4.3.3 The site is within the Letchworth Conservation Area and this is also a material consideration. However the location to the rear, scale, form and proposed materials are considered acceptable for this location. Overall I do not consider that the proposal would cause any material harm to the character and appearance of the Conservation area.

4.4 **Conclusion**

4.4.1 In the absence of any material or sustainable planning objections I have framed a favourable recommendation accordingly.

5.0 **Recommendation**

5.1 That planning permission be **GRANTED** subject to the following conditions:

1. The development hereby permitted shall be begun before the expiration of 3 years from the date of this permission.

   Reason: To comply with the provisions of Section 91 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

2. The development hereby permitted shall be carried out wholly in accordance with the details specified in the application and supporting approved documents and plans listed above.

   Reason:To ensure the development is carried out in accordance with details which form the basis of this grant of permission.

Proactive Statement:

Planning permission has been granted for this proposal. Discussion with the applicant to seek an acceptable solution was not necessary in this instance. The Council has therefore acted proactively in line with the requirements of the Framework (paragraphs 186 and 187) and in accordance with the Town and Country Planning (Development Management Procedure) (England) Order 2015.
