For the attention of Heather Lai

Dear Heather

Your Ref: 18/01317/FPH … 8 Gun Meadow Avenue.

With reference to the above address where an erection of pre-fabricated annexe for ancillary residential use associated with main dwelling.

We are direct neighbours to this address and very concerned to restriction of sunlight coming into our rear garden. We have a large vegetable and fruit plot where this building will bring a lot of shade to this particular part of our garden. We spend many hours in this area with preparation etc, not to have a complete blank shadowing this!!!!

Also very concerned with the vehicular access during building works plus afterwards too. We are a private road and keep the maintenance of this road … by all the residence in the avenue at our expense. Plus we at No. 7 need access every day without blockages of various vans, lorries, plus any other vehicules across our drive. We need to care for my father of 95 yrs of age who lives 5 minute drive, everyday.

Also other residence of the Avenue have not had notification of this erection at No.8, but are all concerned of the future of the avenue regarding others doing the same …. within the avenue. Start of a big problem to all.

We would appreciate it when this matter goes in front of the Parish Council in Knebworth that our fears are dealt with, taking us into consideration too.

We would like to attend this council meeting this month in Knebworth but we are away on a small break. It would be nice if your office could let us know the outcome of our serious and upsetting concerns.

Kind Regards.
