Dear Mr Swain

Discharge of Conditions: Condition 7 - All new windows shall be constructed in timber and shall have flush as opposed to storm proof casements and a 1:1 section drawing or actual sample of glazing bars shall be submitted to and approved in writing by the Local Planning Authority prior to the commencement of the development hereby approved (As Discharge of Condition of Planning permission 15/00436/1 granted 14/07/2015).
The Stable, Mill Street, Ashwell, Hertfordshire, ,

Please quote the following reference: 18/00179/DOC on all correspondence.

I refer to your application received on 27 December 2017 which seeks approval details for use on the above development pursuant to Condition 7 of the planning permission reference number 15/00436/1.

I have now received the final comments of the Councils Conservation Officer in relation to revised drawing nos. 492/06A which now indicates a spacer bar to be used with what would be a 24mm double-gazing system and confirms that together with drawing no. 492/07, the details are considered acceptable. to As a consequence, I am prepared, on behalf of the Local Planning Authority, to approve the specified details for use on the development.

I would remind you that the requirements of the afore-mentioned Condition will not be fully complied with until the development has been completed in accordance with the details hereby approved. Should you require the Local Planning Authority's agreement in this respect then you will need to apply in writing following the completion of the development.

Yours sincerely

Simon Ellis
Development & Conservation Manager
