6. Tree Preservation Order Details

If you know which TPO protects the tree(s) enter its title or number below

We are unaware if there is any TPOs on these trees

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).
Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.
E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

T1 Cherry plum tree located in the rear garden to be reduced by 20-25% The tree is slightly uneven due to the suppression of the now removed conifer leaving it unbalanced. The tree is showing signs of disease so a reduction will also prevent any branch collapse.
T2 Large Fir tree to have the visible deadwood removed on the stem.
T3 Large Poplar tree central to the garden with the removal of the large Conifers either side from our previous application it has now left the Poplar an ungainly shape with extended limbs now open to new winds. There are also signs of die back with one large limb completely dead. A reduction by 25-30% will improve the health and shape of the tree enhancing its amenity value to the surrounding landscape.

8. Trees - Additional Information

For all trees
A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.

For works to trees covered by a TPO
Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)

1. **Condition of the tree(s)** - e.g. it is diseased or you have fears that it might break or fall:
   If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert. ○ Yes ◉ No

2. **Alleged damage to property** - e.g. subsidence or damage to drains or drives. ○ Yes ◉ No
