

A 3D architectural rendering of a two-story brick house. The house features a steep, red-tiled gable roof with three dormer windows. The main body of the house is constructed of red brick. On the left side, there is a small, single-pane window. In the center, there is a large, multi-paned window that reflects the surrounding environment. To the right of this large window, there is a smaller, single-pane window. The house is set against a plain white background, and a dark brown shadow is cast on the ground in front of it.
