Dear M, Tiffin

Ref 18/00694/FP

I write in response to your letter dated 3/4/18 re proposed 2x3 bed new houses on the grounds of the Fox & Hounds.

As a resident of Barley I think that this proposal should be rejected for the reasons shown below. I am not in principal opposed to adding in fill housing in the area but this location is not suitable because :-

1) The newly opened pub will need all the area for its own parking needs & perhaps a small garden. This will be necessary for it to succeed as a business

2) There is already major congestion of parked cars around all the roads in this area. This is due to workers from Richmond coaches, the care home and local housing.

Adding more parking on these roads will make the bend and junction even more dangerous than it already is.

PTO

Yours truly

[redacted]

PS There are also problems near the school entrance with cars, bins & rubbish collection day. This could be made even worse.
