18/00959/FP (HCC Ref. NH/166/2018) - 66 Wilbury Way, Hitchin

Re: Request for further information – Highways

18/05/2018

HCM Transport information

Initially, there will be 30 students using the school during weekday hours. There will be approximately 10 students using the school during weekday evenings, and 20 students over the course of the weekend. In the future, the maximum capacity of the building will be 70 weekday daytime students, 20 weekday evening students and 30 students over the course of the weekend.

Around 80-85% of students will be travelling to the school by public bus and will be coming from across North Herts. The majority will arrive by train to Hitchin Railway Station and then take the No. 89 bus to Wilbury Way. The bus stops are approximately 100m from the school and have been marked on drawing HCM/PL/05. Around 10-15% of students will be dropped off by car, there are a number of safe drop-off locations available, two of these have been marked up on drawing HCM/PL/06. It is envisaged that the amount of students within walking/cycling distance of the school will be negligible however, these routes have been marked on drawings HCM/PL/07 and HCM/PL/08. Due to the age of students (16-18yrs) the number estimated to be driving themselves to the school is very small however, there is communal car parking available with a safe pedestrian route to the school marked on drawing HCM/PL/09.
