Dear Mr Ellis

I need to draw to the attention of the Planning Committee the position of this property. It is on the edge of Mangrove Green and the only access to this property is on an unauthorised track across the village green and the green itself. There are also trees on the green opposite the property. My concern is that all this will be damaged by the delivery lorries, skips and the general activity that happens on a building site. Damage done should be repaired back to the original state and I would like something to be put in writing to Mr Childs stipulating this fact, should the planning application be approved, and that it is duly adhered to by the Planning Committee at the end of the project.

Yours sincerely

[redacted]

Mrs Janice Neal
