1 INTRODUCTION

1.1 Document Context

- 1.1.1 RGP is commissioned to provide highways and transport input in support of proposed development at Land South of Turnpike Lane, Ickleford ("the site").
- 1.1.2 The proposed development comprises the delivery of 100 residential units, with access off Turnpike Lane – it is proposed that the development would comprise 50% affordable housing and with approximately half of these being 1 or 2-bedroom dwellings and half being 3-bedroom dwellings.
- 1.1.3 This document is prepared to support an outline planning application for the site, with all matters reserved, except for the access arrangements – Hertfordshire County Council (HCC) and North Hertfordshire District Council (NHDC) are the respective Highway and Local Planning Authorities for the site.

1.2 Travel Plan

- 1.2.1 The Hertfordshire County Council 'Travel Plan Guidance' (2020) defines a Residential Travel Plan:

"Address travel generated by residents of housing developments and deal with the journey origin rather than destination. The development's location, design and amenities within the development should reduce car use, the need to travel, and be supported by site permeability and connectivity to alternative modes. They incorporate personalised travel planning and travel information for each home."

- 1.2.2 The Guidance can be found at:

- <https://www.hertfordshire.gov.uk/media-library/documents/highways/development-management/travel-plan-guidance.pdf>.

1.3 Additional Documents

- 1.3.1 RGP have additionally prepared a Transport Assessment (document reference. 2024/8550/TA01) to assess the potential highways and transport impacts associated with the proposed development. It is recommended the two documents are read in conjunction.

2 BASELINE CONDITIONS

2.1 Site Location

- 2.1.1 The site comprises a parcel of land off Turnpike Lane in the village of Ickleford. A site location plan is provided below, for reference.

Figure 1 Site Location Plan

- 2.1.2 The site is located close to village amenities and public transport stops on Bedford Road and a public transport station in the town centre of Hitchin, approximately 3.0 kilometres to the south of the site.

2.2 Accessibility Credentials

Walk

- 2.2.1 Turnpike Lane benefits from a single footway which benefits from incidences of dropped kerbs and lighting. Footways provide connectivity to local public transport stops (bus) and amenities of the village of Ickleford.
- 2.2.2 The village of Ickleford comprises a convenience store, church, public house, primary school, sports club and village hall, amongst other amenities – the facilities of the village would serve a range of day-to-day requirements without needing to travel further afield.
- 2.2.3 The proposed development would link to the existing footway provision on Turnpike Lane via a new pedestrian crossing point, comprising dropped kerbs, tactile paving and pedestrian refuge, as discussed later in this document.
- 2.2.4 Footways also extend along Bedford Road, which provide access to local bus stops and link to Hitchin. There is also a new signalised crossing at the western frontage of the site, which provides access to the north-bound bus stop.
- 2.2.5 The Turnpike Lane footway provides an existing link towards this infrastructure, whilst the proposed development would also include a new pedestrian connection to the footways on the eastern side of Bedford Road.

Cycle

- 2.2.6 A review of 'Hertfordshire Cycling Map for Recreation and Commuting' there are no cycleways present in or around Ickleford, however, it is considered the local road network could provide opportunities for travel by bicycle.

Bus

- 2.2.7 The closest bus stops are located on the A600, Bedford Road. Services comprise:
- 9B – Bedford to Stevenage – running to an approximate hourly frequency between 05:00 and 20:00.
 - 9D – Bedford to Stevenage – an early morning servicing operating between 04:00 and 06:00.
 - 74 – Bedford to Hitchin – running to an approximate hourly frequency between 07:00 and 17:00.
 - 89 – Henlow Camp to Hitchin – running to an approximate hourly frequency between 07:00 and 18:00.

Bus timetables are attached hereto at **Appendix A** for reference.

- 2.2.8 It is considered education, employment, leisure and retail trips could be completed by bus.

- 2.2.9 The northbound stop is demarcated by a flag and post arrangement, to benefit from a shelter, seating and printed timetable information.

Figure 2 Bedford Road Bus Stops

- 2.2.10 The southbound stop is demarcated by on-carriageway markings, to benefit from printed timetable information, seating and shelter. It should be noted there is a layby (as illustrated in the figure above) provided for buses to pull clear of through traffic.
- 2.2.11 A new pedestrian access would be provided at the western site boundary, conveniently positioned to link to the existing bus stops on Bedford Road.
- 2.2.12 Further information can be found at:

- <https://www.traveline.info/>.

National Rail

- 2.2.13 The closest National Rail station is Hitchin, located to the south of the site at an approximate 3.0 kilometres – the station could therefore be conveniently reached by bicycle or bus, as part of a multi-modal trip.
- 2.2.14 The station is served by Great Northern and Thameslink services to:
- Brighton.
 - Cambridge.
 - Horsham.
 - Letchworth Garden City.
 - London King's Cross.
 - Peterborough.
- 2.2.15 The station benefits from 389 car parking spaces and 291 cycle parking spaces.
- 2.2.16 Station information is attached hereto at **Appendix B** for reference.

2.2.17 Further information can be found at:

- <https://www.nationalrail.co.uk/stations/hitchin/>.

Car

2.2.18 Turnpike Lane is a single carriageway with travel permitted to the east and west. Turnpike Lane benefits from incidences of street lighting installations. The carriageway is subject to some traffic calming measures.

2.2.19 Bedford Road provides connectivity to the town of Hitchin to the south of the site. Hitchin is the location of the closest National Rail station and amenities and services.

Summary

2.2.20 The site comprises a parcel of land off Turnpike Lane in the village of Ickleford.

2.2.21 The site is located close to village amenities and public transport stops on Bedford Road and a public transport station in the town centre of Hitchin, approximately 3.0 kilometres to the south of the site.

2.2.22 Turnpike Lane benefits from a single footway which benefits from incidences of dropped kerbs and lighting. Footways provide connectivity to local public transport stops (bus) and amenities of the village of Ickleford.

2.2.23 A review of 'Hertfordshire Cycling Map for Recreation and Commuting' there are no cycleways present in or around Ickleford, however, it is considered the local road network could provide opportunities for travel by bicycle.

2.2.24 The site benefits from being located close to public transport stops (bus) and stations (National Rail) for sustainable travel around North Hertfordshire and beyond.

3 TRAVEL BEHAVIOUR

3.1 Context

- 3.1.1 As set out in RGP produced Transport Assessment, the Trip Rate Information System database was interrogated to identify sites similar to the proposed development to provide a proposed trip generation and proposed mode split.

3.2 Mode Split

- 3.2.1 With consideration to the proposed 100 residential dwellings, the following mode split is anticipated, as summarised in the table below.

Mode	Percentage
Pedestrian	19%
Cyclist	2%
Public Transport	4%
Car	74%
Total	100%

Figure 3 Proposed Mode Split

- 3.2.2 As summarised above, it is anticipated 74% of movements would be completed by car, with 26% of movements completed by active (walking and cycling) and sustainable (public transport) travel modes.

4 TARGET

4.1 Context

4.1.1 As set out in the Travel Behaviour section of this document, it is anticipated 74% of movements would be completed by car, with 26% of movements completed by active (walking and cycling) and sustainable (public transport) travel modes.

4.2 Target – Residential

4.2.1 With consideration to the proposed mode split, the target of this Travel Plan would be to reduce car use by 5% within the first five years of occupation.

Mode	Baseline	Year 1	Year 2	Year 3	Year 4	Year 5
Car	74%	73%	72%	71%	70%	69%
Active & Sustainable	26%	27%	28%	29%	30%	31%

Figure 4 Travel Plan Target

4.2.2 As summarised above, it is anticipated the target would be achieved by a mode shift to active (walking and cycling) and sustainable (public transport) travel modes.

4.3 SMART

4.3.1 The target is considered sufficient, in light of the accessibility credentials of the site and framework nature of this document – importantly, the target is SMART:

- **Site-specific.**
- **Measurable.**
- **Achievable.**
- **Realistic.**
- **Time-specific.**

5 TRAVEL SURVEY

5.1 Context

- 5.1.1 For the purpose of this document, anticipated travel behaviour data as presented in RGP produced Transport Assessment provides data for an initial Travel Plan target.

5.2 Travel Survey

- 5.2.1 An Initial Travel Survey would be triggered at 75% occupancy. The Initial Travel Survey would inform the preparation of a revised Travel Plan with an updated target.
- 5.2.2 Any Travel Survey would be carried out by a Travel Plan Coordinator, to ensure the questions and data captured can be tailored to residents of the development proposals – in any such instance, the Travel Survey would capture information on the 'main mode of travel', that is, the mode used for the longest distance on any journey leg.
- 5.2.3 Travel Surveys would be completed on the first, third and fifth anniversaries of the Initial Travel Survey – the results would inform the preparation of a Travel Plan Survey Report, and a revised Travel Plan.

6 MEASURES

6.1 Coordinator

- 6.1.1 A Travel Plan Coordinator could be appointed who would have overall responsibility for this document. The contact details for the Coordinator would be provided to North Hertfordshire District Council and updated in the event of an appointment of a new Coordinator.

6.2 Measures

- 6.2.1 The following Travel Plan measures could be implemented:

- Distribution of maps showing safe local cycling routes.
- Distribution of maps showing safe local walking routes.
- Engage residents with national campaigns e.g. Car Share Day, Bike Week, Walk to Work Week, European Mobility Week.
- Inclusion of sustainable travel information and incentives in residents' welcome packs.
- Personal travel advice offered to residents.
- Promotion for specific initiatives and events.
- Promotion of public transport with service information and advice.
- Promotional events and literature to encourage car sharing.
- Promotional events and literature to encourage cycling.
- Promotional events and literature to encourage walking.

- 6.2.2 The above measures are not exhaustive, with the Coordinator encouraged to explore further Measures as appropriate.

6.3 Marketing and Promotion

- 6.3.1 The following Travel Plan marketing and promotion could be completed:

- Events supporting national campaigns, e.g. Car Share Day, Bike Week, Walk to Work Week, European Mobility Week.
- Personalised travel planning.
- Resident travel welcome packs.
- Summary of incentives for residents.

6.3.2 The above marketing and promotion measures are not exhaustive, with the Coordinator encouraged to explore further Measures as appropriate.

6.4 Residential Travel Vouchers

6.4.1 The Hertfordshire County Council ‘Travel Plan Guidance’ confirms the developer of any residential site must commit to providing a “financial incentive on a per unit bases in line with Table 1: Residential travel voucher incentives for residential developments.” Table 1 is reproduced from the Guidance below, for reference.

All residential developments (including in mixed-use development)	Unit type	Minimum value per unit
	Flat	£50
	House	£100
Voucher values will be index-linked to RPI dated from May 2014 (date of first adoption of this guidance).		

Figure 5 Residential Travel Voucher Incentives

6.4.2 The Guidance confirms the provision of the incentives “is the responsibility of the developer, not the county council unless expressly agreed and secured through a section 106 obligation with necessary developer contribution. However, the county council may be able to support with the management (negotiation, production and reimbursement mechanism) of multi-operator bus vouchers through its Intalink Enhanced Partnership at cost to the developer.”

7 MONITORING AND REVIEW

7.1 Monitoring

- 7.1.1 An Initial Travel Survey would be triggered at 75% occupancy. The Initial Travel Survey would inform the preparation of a revised Travel Plan with an updated target.
- 7.1.2 While consideration would be given to the use of the ModeshiftSTARS platform, it could be more appropriate for a tailored Travel Survey to be developed – any tailored Travel Survey would capture the ‘Main Mode of Travel’.
- 7.1.3 In consideration of the modest scale of development, it is anticipated that Travel Surveys would be completed on the first, third and fifth anniversaries of the Initial Travel Survey – this level of monitoring is considered sufficient.
- 7.1.4 Following any Travel Surveys, the results would be shared with North Hertfordshire District Council as part of a Travel Survey Report, and any other relevant or interested party as appropriate.

7.2 Review

- 7.2.1 The target of this document would be reviewed and revised following the Initial Travel Survey, to be completed once the site has achieved 75% occupancy.
- 7.2.2 Should subsequent Travel Surveys demonstrate the target has been achieved prior to its target date, it would be modified to provide a further, more challenging target.
- 7.2.3 Should subsequent Travel Surveys demonstrate progress is not being made toward achieving the target, the reason(s) why would be investigated, to include a review Travel Plan measures which could be added to or modified.

7.3 Evaluation

- 7.3.1 The Hertfordshire County Council ‘Travel Plan Guidance’ confirms to enable the ongoing auditing and supervision of Travel Plans by the county council “an Evaluation and Support Contribution must be secured by Section 106 obligation, linked to the size of development.” The details of which for Residential Travel Plans are reproduced from the Guidance below, for reference.

Size threshold	Contribution required
Full Travel Plans	£1200 per annum
Strategic sites	Subject to discussion with the county council
Other	
Contributions will be index-linked to Retail Price Index (RPI), dated from May 2014 (date of first adoption of this guidance).	

Figure 6 Evaluation and Support Contribution

7.3.2 An indicative 'breakdown' of costs is provided in the Guidance, as reproduced, below.

Support type		Cost per annum
Analysis and reporting	Analysis of submitted data, data entry, report production	£130
Annual review meeting		£175
Other support	Assisting plan development and implementation, advice on marketing, promotion and events, providing updates on products and services	£203
Technical support	Data analysis, mapping, monitoring visits	£692
Total annual cost		£1200

Figure 7 Indicative Cost 'Breakdown'

7.3.3 The Guidance confirms the Evaluation and Support Contribution "enables the county council to engage in a proactive manner in the development, evaluation and support of Travel Plans. A partnership approach between the county council, developer, Travel Plan Coordinator and occupants increases the effectiveness of Travel Plans."

APPENDIX A

Timetable report
