Simon Ellis
Development + Conservation Manager
North Herts District Council.

15th May 2018.

Dear Mr Ellis.

Case Reference No: 18/00989/FP

Like many others I walk daily, with my dog, along this particular section of Park Lane. There is no footpath. This stretch of road is exceedingly dangerous for both pedestrians, and the many cyclists. An accident waiting to happen! Turning vehicles can only add to the problems here.

Vehicle access to the field, at the rear of my garden will compromise both my privacy and security. There have been previous problems with intruders, when car parking has, occasionally, been permitted in this field.

Is a second entry point really required?.

Yours faithfully
