We are trying to add our comment to the above application via your mobile portal but are unable to do so. To that end please can you add the enclosed comment to the application.

We would like to support this planning application as we feel the scheme and materials selected are sympathetic to and will enhance the appearance of the listed asset Risden cottage.
We would however like to record that the associated document 'Plans - Risden Cottage SG9 0SL Buy-A-Plan' misrepresents the adjoining boundary to neighbouring property Hillbre and would ask that the planning notice issued ensures that the boundary between these two properties is correctly adhered to and observed. For reference we have included a copy of our title plan noting that it does not show either:
a) our 2006 extension
or
b) the 1980s Risden garage extension to the rear and side of the garage onto the boundary.
