Dear Sir,

The erection of two three bed semi detached 'dwellings' together with associated parking and amenity space, Fox & Hounds, high st, Barley. You have had letters from me before about this stupid idea of building these houses in the centre of the village, what with the erection of houses at the top of 'Pudding Lane, if you know the area it is not far from the Fox and some of these fields have only just dried out, it is sheer & utter greed by people who have a bit of land, you already know from past letters, where people can't get flood insurance, because so many houses have been erected, it all comes down, if you fill the ground with concrete you are asking for trouble, 4 bungalows & six houses cant get flood insurance because of this. The people who build these are not intrested in the village

P.T.O

just to make a quick buck, and people who pass these things, should be held responsible for flooding. They don't live here they don't know what it's like and this should be turned down straight away no questions asked.

Yours sincerly

Mr & Mrs R Symes.
