- NOTES**
- * Drainage pipe sizes (where shown) have been gauged from the surface for safety reasons and should be regarded as approximate only.
 - * Tree species (where shown) should be treated with caution and expert identification is advised.
 - * Although this is a digital survey the accuracy and amount of detail shown is only commensurate with the graphical scale of mapping as specified. Care should be exercised when working to larger scales.
 - * Visible features in the vicinity of the boundaries as shown above, may not represent the extent of legally conveyed ownership.
 - * Whilst every effort has been made to achieve accuracy on this plan, CRUCIAL clearance dimensions, levels and invert levels should be checked prior to design and construction.
 - * Areas of dense undergrowth cannot be surveyed in detail, these areas will be shown in outline only and marked as (dense undergrowth) on the plan.
