

Waste And Recycling Services Manager

N.H.C.

19 MAR 2026

NORTHGATE

Consultation

Please see below for waste comment.

General:

Pull distances to the collection vehicle should not exceed 15m in accordance with BS5906:2005.

Separate internal storage provision for waste should be provided in kitchen areas to support the recycling of different waste streams to support the National Planning Policy for Waste's requirements to support driving waste up the waste hierarchy.

The surface to the collection point should be uninterrupted, level with no gravel or similar covering, and have a width to enable the easy passage of wheeled bins. For two-wheeled bins this should be 1 metre, with a maximum gradient of 1:12.

Storage areas should be conveniently located with easy access for residents - residents should not have to take their waste and recycling more than 30metres to a bin storage area, or take their waste receptacles more than 25metres to a collection point, (usually kerbside) in accordance with Building Regulations Approved Document H Guidance.

Consideration should be given to parking arrangements alongside or opposite the access to individual streets. If car parking is likely in the vicinity of junctions then parking restrictions may be required to ensure access is not inhibited.

For infill applications consideration should be given to parking arrangements alongside or opposite the access to the site. If car parking is currently permitted the consideration of parking restrictions may be required to ensure access is not inhibited.

For houses, bins should be ordered direct from the Council's contractor 2 weeks in advance of first occupation to ensure they arrive in time for the first residents moving in.

Pull distances from the storage point to the collection point should not be within close proximity to parked cars.

The gravel drive makes pulling bins difficult and consideration should be given to whether this surface is the most suitable or whether bins stored closer to the collection point would be more preferable.

The applicant should note that collections occur from the kerbside and residents will be required to present their bins in this location on collection day.

Further general advice on waste provision for developments is available on our website: <http://www.north-herts.gov.uk/home/planning/waste-and-recycling-provision>
