

Architectural elevation drawing of a two-story building. The drawing includes dimensions: a total height of 9223 and a porch height of 4950. The building features a gabled roof, multiple windows, and a central entrance area with a porch supported by columns.

Architectural elevation drawing of a two-story building. The drawing shows the front facade with various window and door configurations. Dimensions are indicated on the left: a total height of 9'2 1/2" and a section height of 5'4 1/2".

A side elevation drawing of the building. It shows a large, rectangular structure with a flat roof. The roof is supported by a series of horizontal lines, suggesting a corrugated metal or a similar material. The main body of the building is also composed of horizontal lines, indicating a similar material or a series of horizontal panels. A vertical line on the right side of the building indicates a corner or a change in material. A dimension line on the left side of the building indicates a height of 5,422.
