

Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

4. Biodiversity net gain strategy

4.1 Is the relevant date for the pre-development biodiversity value the same date as the planning application?

- ☒ Yes
☐ No

4.2 If no, what earlier date did you agree with the LPA?

N/A

4.3 How have you met the guidance on 'what counts towards your BNG'?

[Find out what you can count towards a development's BNG](#)

The on-site Biodiversity Net Gain assessment has been undertaken in accordance with the statutory metric guidance. Baseline habitat units comprised 0.53 area habitat units, with no hedgerow or watercourse units present. Post-intervention, area habitat units increased to 0.58 units through habitat retention, enhancement, and limited creation, resulting in a net gain of 0.06 area habitat units (10.5%).

4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on site, including to avoid or minimise the impact on irreplaceable habitats.

All baseline habitats on-site are of standard value, with no irreplaceable habitats present. The proposed development is designed to retain and enhance existing habitats, delivering a net gain of 0.06 area habitat units (10.5%). Hedgerows and watercourses are absent, so no impacts are predicted. Standard best practice measures will be

applied during construction to avoid or minimise impacts to retained or newly created habitats.

4.5 Did you use your local nature recovery strategy to inform the strategic significance of habitats?

This includes other specified strategies if you do not have a local nature recovery strategy.

☒ No

4.8 If yes, tell us about the significant on-site enhancements

Include the appropriate planning condition or how you've secured the habitat.

4.9 How many off-site biodiversity units do you need to meet 10% net gain?

N/A

4.10 Explain why you're using off-site biodiversity units

Only answer this question if you're planning to use off-site biodiversity units (250 words).
