Hi Andrew,

Thank you for your response. It was Mark who requested the sections drawing, so he's maybe decided he now needs these to thoroughly determine the application.

I will await your drawing. In the meantime, could you please advise if the amended proposal description below is acceptable to you?

Kind regards,

Allison Fox

Hi Allison

Thank you for your email

The quote was deliberate in not having glazing bars or leading pending the approval as we knew a like for like replacement was unlikely to be approved - this is because I did talk to Mark about this when he was reviewing a previous planning application (the thatch replacement) - this is why the quote is without any bars or leading and is why i wrote the DAS the way i did with the leading to match other windows.

I will ask for the cross section drawing and send it on

Kind regards

Andy

Dear Andrew,

With reference to the above application, please:

Note: The Estimate by AP Specialist Doors & Joinery Ltd shows clear glazed doors (leadwork not mentioned in spec but does mention 14mm Krypton filled). I note at page 3 of the DAS that a 14mm Krypton-filled slimline unit is proposed, and page 4 of the DAS shows the proposed leaded light pattern. On balance, I think the discrepancy is addressed but the estimate could have mentioned leadwork.

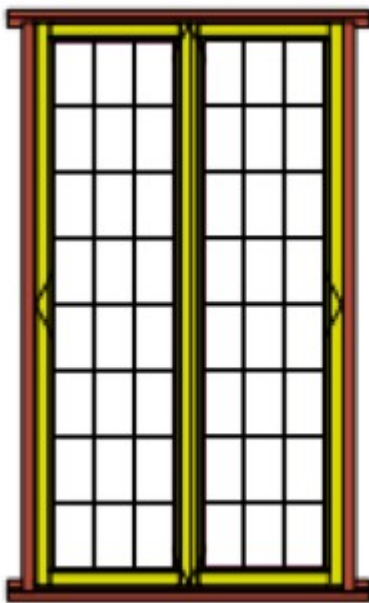

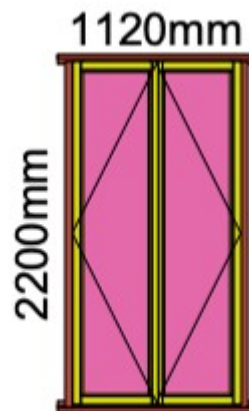

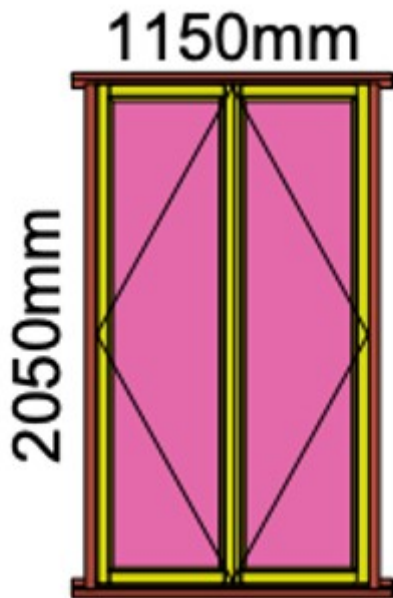

Figure A – Proposed leaded light Pattern

Could you please provide a drawing showing section details of the glazing. Please send this to me as a PDF attachment via e-mail to: allison.fox@north-herts.gov.uk

I have also slightly amended your proposal description to: ***Replacement of two sets of single-glazed French doors on rear elevation with double-glazed, leaded-light French doors.***

Could you please advise if this is acceptable to you via e-mail to the above address.

Kind regards,

Allison Fox
