TREE REPORT

Address

14 Sollershott West,
Letchworth Garden City,
SG6 3PXI

Assessment notes

We were requested to assess the Maple Tree (T1) at the above property. The customer would like us to repollard the Maple tree back to the boundary. The maple tree has been pollarded previously and is required to be pollarded again as part of the tree maintenance, to keep the tree away from the building and to allow light into the house.

The tree is multistemmed and our customers only want to pollard the stems that are on their side. The owner of the tree does not want to pollard her side of the tree.
