

PATIENT OBJECTION PETITION
Planning Application PP-15066993
Units 1-5, rear of 93-98 Bancroft, Hitchin, SG5 1NQ

We, the undersigned, are patients and/or customers of the pharmacy currently trading from Units 1-5, rear of 93-98 Bancroft, Hitchin. We object to planning application PP-15066993, submitted to North Hertfordshire District Council, for a single-storey extension and reconfiguration of these premises.

The application describes the premises as vacant. This is incorrect. The pharmacy is open and trading, and provides NHS prescription and pharmaceutical services to over 7,000 patients in this community, many of whom are elderly or disabled and depend on this specific location.

The proposed reconfiguration would divide the premises currently occupied and used by the pharmacy into five smaller units. We are concerned that this could materially affect the pharmacy's ability to continue providing its existing NHS pharmaceutical services from these premises and could disrupt convenient access to those services for patients and the local community.

By signing below, we ask North Hertfordshire District Council to:

- (1) correct the factual record before determining this application;
- (2) properly assess the impact of the proposed works and reconfiguration on continued access to pharmaceutical services; and
- (3) take these patient and customer objections fully into account when determining the application.

Data note: signatures collected on this sheet will be submitted to North Hertfordshire District Council as part of Rightpharm Limited's representations on planning application PP-15066993, and may be included in the public planning file in accordance with the Council's standard practice for planning consultation responses

PATIENT OBJECTION PETITION

Planning Application PP-15066993
Units 1-5, rear of 93-98 Bancroft, Hitchin, SG5 1NQ

We, the undersigned, are patients and/or customers of the pharmacy currently trading from Units 1-5, rear of 93-98 Bancroft, Hitchin. We object to planning application PP-15066993, submitted to North Hertfordshire District Council, for a single-storey extension and reconfiguration of these premises.

The application describes the premises as vacant. This is incorrect. The pharmacy is open and trading, and provides NHS prescription and pharmaceutical services to over 7,000 patients in this community, many of whom are elderly or disabled and depend on this specific location.

The proposed reconfiguration would divide the premises currently occupied and used by the pharmacy into five smaller units. We are concerned that this could materially affect the pharmacy's ability to continue providing its existing NHS pharmaceutical services from these premises and could disrupt convenient access to those services for patients and the local community.

By signing below, we ask North Hertfordshire District Council to:

- (1) correct the factual record before determining this application;
- (2) properly assess the impact of the proposed works and reconfiguration on continued access to pharmaceutical services; and
- (3) take these patient and customer objections fully into account when determining the application.

Data note: signatures collected on this sheet will be submitted to North Hertfordshire District Council as part of Rightpharm Limited's representations on planning application PP-15066993, and may be included in the public planning file in accordance with the Council's standard practice for planning consultation responses.
