2, Springhead,

Ashwell

Herts. SG7 5LL

Aug 6th 2023.

Dear Sir,

Application Ref: 24/01444/FP.

I object to this application for the following reasons.

1. To build on the last remaining field would destroy our heritage of an important agricultural village green
2. The field is highly visible from approaching lanes and should be left as a green area, a village green space.
3. Roman artefacts have been discovered. The field should be left undisturbed for posterity.
4. The proposed entry on to the road and increased traffic onto Kings Lane Way would be dangerous junctions.

5. Ashwell School is full to capacity. Ashwell medical surgery is under pressure. Further housing would be an added strain on our community.
6. The essential services; the land drains and sewers in huccs lane are old and straining to cope with the flow at present. Further building would add to the problem of our overstretched drains.
7. The field is naturally ^{diverse} ~~diverse~~. Any 'enhancement' would destroy the natural feature, not enhance it.

Yours faithfully,
