Dear Mr Hunter

Your Ref: 25/00088 / FPH

I neither object to nor support this planning application.

However, I do have one question relating to it. Considering all that has already been done to this property, does this current application fall within the rules & regulations required for both, a listed property and the conservation area.

I have just been informed that all mail to the Planning Department has to first go to Nottingham, I will be sending an email, but as I have already written this, I will be delivering it by hand.

Yours sincerely
