Environmental Statement Addendum Volume 1: Text  
Chapter 8: Built Heritage

February 2026

Urban&Civic

Hertfordshire

## **8.1 INTRODUCTION**

- 8.1.1 The Regulation 25 requests make no reference to the need for additional information in relation to the assessment of impacts on built heritage reported in chapter 8 of the original ES.
- 8.1.2 There are no changes to the baseline that were not accounted for in the original ES Chapter 8. Furthermore, the proposed amendments to the scheme have no implications for built heritage and the conclusions of the original ES therefore still apply.
- 8.1.3 Accordingly, no further information is required in this ES Addendum in respect of built heritage. However, additional information and mitigation is provided regarding archaeology and can be found at Chapter 9.

## **8.2 RESPONSE TO REGULATION 25 REQUEST**

8.2.1 The table below summarises the Regulation 25 requests for additional information and any issues raised by consultees.

**Table 8.1: Regulation 25 Requests Summary**

| <b>Commentary from Reg. 25 Request</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                 | <b>Response from Applicant</b>                                                                                                                                                                                                                                        |

| <p>Historic England</p> <p>Some impact would appear to be created on the South of Blackhorse Farm Roman settlement site (NHLE 1003548) by reason of placing new built development to its east. I am not able to agree with the Heritage ES in its statement (8.5.10) that no significant harm will be created to the setting of this asset, given the current outline nature of the proposals and the proximity of proposed development zones to the asset of up to three storeys.</p> | <p>This point is acknowledged and therefore as this ES Chapter is focused upon Built Heritage, it is considered this assessment should be contained within Chapter 9. Refer to Chapter 9 of the ES and ES Addendum for the assessment of impacts on NHLE 1003548.</p> |
