

Quotation

Dated: 17th September 2024

Customer Address:

Andy Brogden
2 Downlands
Royston
Hertfordshire
SG8 5BY

For: Lime and Chestnut Tree Works with
Green Waste Processing

Item	Description of Work
1	T1 Group: The three tall multi-limbed 38-45-feet-tall (approx.) Horse Chestnut (Aesculus Hippocastanum) trees are to undergo a strong re-pollard to reduce their dominance and of the house and garden and return them to the previously established size, shape and balance.
2	T2: The 38-feet-tall (approx.) Lime (Tilia Tormentosa) tree to undergo a Crown Reduction by 20-30% (8 – 11 feet / 2 – 3 meters) Through pruning, dead wooding and overall reduction the crown will be opened up to leave the tree healthy and balanced with a long-lasting shape fit for the habitat. The work will also create more space over the driveway and garden, allowing more light into the area.
