Biodiversity net gain

Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'biodiversity gain condition' requiring development to achieve a net gain of 10% of biodiversity value.

This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.

Applicants for planning permission are required to make a statement as to whether they believe the biodiversity gain condition will apply if permission is granted, please confirm:

☒ It is my belief that if permission is granted for the development to which this application relates the biodiversity gain condition would not apply

*A 'householder application' means an application for planning permission for development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.

Details of the pre-application advice received

Design and appearance

The two storey side extension is to be set in from the side boundary (by approximately 0.5m) and set back from the front main wall of the existing house. These aspects as well as the slight set down in ridgeline from the main roof helps to maintain a subordinate impact of the main part of the extensions on the existing dwelling. The rear projection is relatively modest and the simple lean to roof with single rooflight is an acceptable design solution.

The proportions of render to window and door openings is acceptable and it is noted that the fenestration generally follows the design of the existing dwelling. Overall I consider that the proposed extensions would comply with the criteria for acceptable design set out in Local Plan policies D1 and D2.

Impact on neighbouring property

The rear extension is set in from the side boundary with No. 12 and as mentioned above has a modest projection. It will have little, if any, impact on the residential amenities enjoyed by the neighbour at No. 12 and therefore would be compliant with Policy D3 of the Local Plan.

The side extension faces towards the side access to the village hall. Whilst it would be visible in public views it would largely be seen against the backdrop of the flank elevation of the existing house and is unlikely to have any adverse impact on the visual amenities of the locality in my opinion.

Parking

An additional bedroom is proposed but there would be no requirement for additional parking. It is noted that two spaces are allocated to this property at the rear.

Biodiversity Net Gain

This level of development (i.e a householder application) is exempt from the need to achieve a biodiversity net gain under the Environment Act.

Climate change

The proposed development, by virtue of its limited scale together with the sustainable location would have no significant implications for the local environment in terms of carbon emissions and therefore would be generally in compliance with the criteria set out in Policy D1 'Sustainable Design' of the North Hertfordshire Local Plan 2011-2031 and Section 14 – 'Meeting the challenge of climate change, flooding and coastal change' of the NPPF 2023.

Conclusions

Overall I would advise that the proposals set out in the pre-application advice submission are considered to be acceptable.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
