Dear Tom,

Re: Conversion and extension of existing barns to create two dwelling following demolition of shed/outbuildings/silos. Alterations to existing vehicular access.] Land At Mill Farm Charlton Road Hitchin Hertfordshire SG5 2AB

ARCHAEOLOGICAL IMPLICATIONS

Thank you for consulting me on the above application.

The applicant has submitted a Heritage Statement (Heritage Network) with this planning application. It includes historic mapping which suggests farm buildings have stood on the site since at least the eighteenth century. In Hertfordshire post-medieval farms are frequently found to have medieval origins. The Heritage Statement notes that Charlton is recorded in Domesday Book and was held by tenants of Earl Harold prior to the Norman Conquest.

I believe that the proposed development is such that it should be regarded as likely to have an impact on heritage assets of archaeological interest and I recommend that the following provisions be made, should you be minded to grant consent:

1. The archaeological historic building recording of the barns, to Historic England Level 3, prior to any development taking place;
2. The archaeological monitoring of any soft-stripping and demolition of the farm buildings, all groundworks related to any demolition taking place on site, specifically the grubbing out of foundations or the removal of slab. This should include a contingency for the further excavation or preservation of any remains encountered;

3. The archaeological monitoring of all groundworks related to the new development, including foundation trenches, service trenches, landscaping, ground reduction and any other ground impact. This should include a contingency for the further excavation or preservation of any remains encountered;
4. the analysis of the results of the archaeological work with provision for the subsequent production of a report and an archive, and the publication of the results;
5. such other provisions as may be necessary to protect the archaeological interests of the site;

I believe that these recommendations are both reasonable and necessary to provide properly for the likely archaeological implications of this development proposal. I further believe that these recommendations closely follow the policies included within Policy 16 of the National Planning Policy Framework. In this case three appropriately worded conditions on any planning consent would be sufficient to provide for the level of investigation that this proposal warrants. I suggest the following wording:

A No demolition/development shall take place/commence until an Archaeological Written Scheme of Investigation has been submitted to and approved by the local planning authority in writing. The scheme shall include an assessment of archaeological significance and research questions; and:

1. *The programme and methodology of site investigation and recording*
2. *The programme for post investigation assessment*
3. *Provision to be made for analysis of the site investigation and recording*
4. *Provision to be made for publication and dissemination of the analysis and records of the site investigation*
5. *Provision to be made for archive deposition of the analysis and records of the site investigation*
6. *Nomination of a competent person or persons/organisation to undertake the works set out within the Archaeological Written Scheme of Investigation.*

B The demolition/development shall take place/commence in accordance with the programme of archaeological works set out in the Written Scheme of Investigation approved under condition (A)

C The development shall not be occupied/used until the site investigation and post investigation assessment has been completed in accordance with the programme set out in the Written Scheme of Investigation approved under condition (A) and the provision made for analysis and publication where appropriate.

If planning consent is granted, I will be able to provide detailed advice concerning the requirements for the investigations, and to provide information on professionally accredited archaeological contractors who may be able to carry out the necessary work.

Please do not hesitate to contact me should you require any further information or clarification.

Yours sincerely,

Andy Instone
