Application Reference: 24/02343/FP

Dear Sirs,

Regarding the above application, one year ago this was a couple of old barns, today it is an industrial estate on a huge scale. The buildings are not temporary, the damage that has been done to the area and surrounding roads is totally unacceptable. We have 40ft artic lorry's going down single track country lanes, I am staggered nobody has been seriously injured or killed yet.

The area is not suited to an industrial estate of any type, let alone on this scale. There is simply not the infrastructure there to support it and it is completely out of keeping with all the surrounding properties.

How on earth have the local authorities allowed this to continue? I have 5 acres just down the road, is it okay if I build an industrial estate on there as well?

I therefore objected in the strongest possible terms and expect the council to have this monstrosity taken down and returned to agricultural barns and land, as it is meant to be.

Yours Sincerely,  
Mr M Slater
