Materials

Does the proposed development require any materials to be used externally?

- ☒ Yes
☐ No

Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material)

Type:

Roof

Existing materials and finishes:

The showroom has a membrane flat roof. The workshop has an asbestos roof.

Proposed materials and finishes:

The existing showroom roof will be replaced with insulated trapezoidal metal cladding panels in grey. To the workshop a new grey trapezoidal metal roof will be installed over the existing asbestos roof.

Type:

Walls

Existing materials and finishes:

Both the showroom and workshop feature a mix of red brickwork, white render and grey cladding.

Proposed materials and finishes:

The retained showroom brickwork will be painted grey, the existing cladding is to be painted grey, with white render to the front elevation and returns. A new entrance canopy feature is also provided. For the workshop, the principle elevation (west) is to receive vertical trapezoidal cladding in grey with the areas of retained brickwork to be painted in grey to create a more uniform finish.

Type:

Windows

Existing materials and finishes:

The showroom features grey glazed screens to the principle elevation with white painted windows to the side and rear elevations. Within the workshop the windows are currently white painted single glazed.

Proposed materials and finishes:

To the Showroom the retained glazed screens are to be painted grey externally. To the Workshop white painted windows will be provided to the mezzanine level.

Type:

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

b) Designated sites, important habitats or other biodiversity features

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

c) Features of geological conservation importance

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
- ☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:
Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:
Under 25 square metres

Please justify the reason why biodiversity net gain does not apply:
The proposed works will not result in any disturbance exceeding 25 square metres. All activity will be contained within a limited area, ensuring minimal impact on the existing site and surrounding environment.

Note: Please read the help text for further information why developments may be exempt or not in scope.

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
