

Description

A surface mounted Sustainable Drainage System (SuDS) with optional wildlife habitats.

Without Habitats

-  SuDS specific topsoil
-  Membrane
-  Water attenuation
-  Filtration media

Outflows can be placed left or right, to align with the downpipe on installation. Please confirm configuration required when ordering.

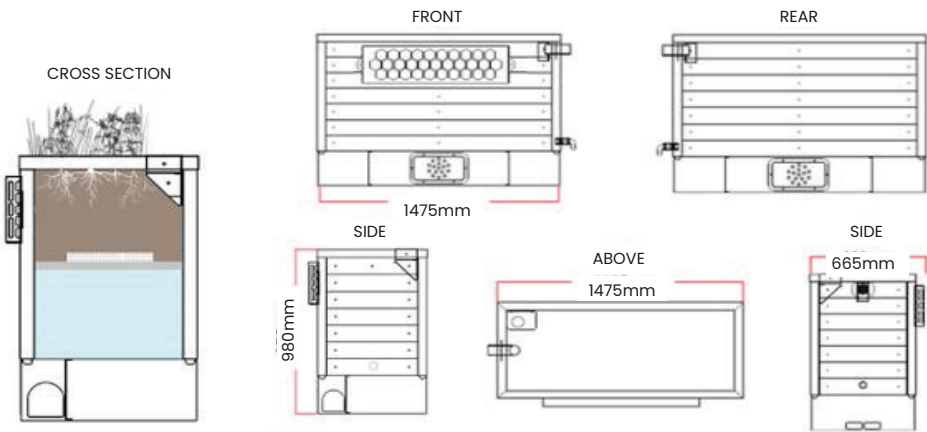

Product Variation	Dimensions (L,W,H) (MM)	Total Volume	Water Attenuation	Soil Volume	Filtration Media	Outflow Per Second
Without additional habitats	1475 x 625 x 750	535L	350L	300L	20L	<0.1 L
