NORTH HERTFORDSHIRE DISTRICT COUNCIL

Town and Country Planning Act 1990

DECISION NOTICE

Correspondence Address:
Welland Design And Build Ltd
9 Earlstrees Court
Corby
NN17 4AX
United Kingdom

Applicant:
Mr Hemphill

PARTICULARS OF DEVELOPMENT

Application: 26/01373/S73

Proposal: Variation of Condition 1 (Approved drawings) of planning permission reference 24/00671/FP granted on 25.10.2024 for Erection of six detached 4-bed dwellings following demolition of existing dwelling/outbuildings and builder yard buildings. (Amended plans received 13/08/24).

Location: Site Of Former Greenside, London Road, Langley, Hertfordshire, SG4 7PP

Plan Nos: Location Plan CP01 CP02 SK001

PARTICULARS OF DECISION

In pursuance of its powers under the above Act and the associated Orders and Regulations, the Council hereby **GRANT PERMISSION** for the development proposed by you in your application received with sufficient particulars on 18 June 2026, subject to the following condition(s):

Planning Conditions

1. The development hereby permitted shall be begun before the expiration of 3 years from the date of this permission.

Reason: To comply with the provisions of Section 91 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

2. The materials to be used on all external elevations and the roof of the development hereby permitted shall be carried out in accordance with the details agreed under application ref. no. 25/00976/DOC unless otherwise agreed in writing by the Local Planning Authority.

Reason: To ensure that the development will have an acceptable appearance which does not detract from the appearance and character of the surrounding area and to comply with Policy D1 of the North Hertfordshire Local Plan 2011 to 2031.

3. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 as amended no development as set out in Classes A, B, C and E of Part 1 (and any further new class that may be introduced by way of an update) of Schedule 2 to the Order, (or any subsequent Statutory Instrument which revokes, amends and/or replaces those provisions) shall be carried out without first obtaining a specific planning permission from the Local Planning Authority.

Reason: Given the nature of this development, the Local Planning Authority considers that development which would normally be "permitted development" should be retained within planning control in the interests of the character and amenities of the area and to comply with Policy D1 and/or Policy D3 of the North Hertfordshire Local Plan 2011 to 2031.

4. Prior to occupation, each dwelling shall incorporate one Electric Vehicle (EV) ready domestic charging point and it shall thereafter be retained.

Reason: To contribute to the objective of providing a sustainable transport network and to provide the necessary infrastructure to help off-set the adverse impact of the operational phase of the development on local air quality and to comply with Policy D4 of the North Hertfordshire Local Plan 2011 to 2031.

5. All public right of way routes (Langley footpath 014) shall remain undisturbed and unobstructed at all times unless legally stopped up or diverted prior to the commencement of the development hereby permitted or closed temporarily for the purpose of works on the footpath, by a Temporary Traffic Regulation Order, Road traffic Regulation Act 1984. The alignment of any public right of way shall be protected by temporary fencing/signing in accordance with details first submitted to, and approved in writing by, Highway Authorities Rights of Way Service throughout the course of the development.

Reason: To safeguard the rights of the public and in the interest of pedestrian safety and amenity and in accordance with Policy 5, 13 and 21 of Hertfordshire's Local Transport Plan (adopted 2018).

6. Prior to occupation of the development hereby permitted, the landscape details shall be carried out in accordance with the details agreed under application ref. no. 25/01102/DOC unless otherwise agreed in writing by the Local Planning Authority.

Reason: To ensure a satisfactory appearance to the completed development and to ensure biodiversity net gain is delivered.

7. The approved details of landscaping shall be carried out before the end of the first planting season following either the first occupation of any of the buildings or the completion of the development, whichever is the sooner; and any trees or plants which, within a period of 5 years from the completion of the development, die, are removed or become seriously damaged or diseased, shall be replaced during the next planting season with others of similar size and species, unless the Local Planning Authority agrees in writing to vary or dispense with this requirement.

Reason: To safeguard and enhance the appearance of the completed development and the visual amenity of the locality, and to comply with Policy NE2 of the North Hertfordshire Local Plan 2011 to 2031.

8. Before the commencement of any other works on the site, trees to be retained shall be protected by the erection of temporary chestnut paling or chain link fencing of a minimum height of 1.2 metres on a scaffolding framework, located at the appropriate minimum distance from the tree trunk in accordance with Section 4.6 of BS5837:2012 'Trees in relation to design, demolition and construction - Recommendations, unless in any particular case the Local Planning Authority agrees to dispense with this requirement. The fencing shall be maintained intact for the duration of all engineering and building works. No building materials shall be stacked or mixed within 10 metres of the tree. No fires shall be lit where flames could extend to within 5 metres of the foliage, and no notices shall be attached to trees.

Reason: To prevent damage to or destruction of trees to be retained on the site in the interests of the appearance of the completed development and the visual amenity of the locality, and to comply with Policy NE2 of the North Hertfordshire Local Plan 2011 to 2031.

9. The requirements of parts (a), (b) and (c) of this condition have been discharged under planning reference 25/01104/DOC. The development shall be carried out in accordance with the details approved under that application.

The site shall not be occupied or brought into use until:

(a) All works which form part of the approved Remediation Method Statement, where required, have been fully completed and, if required, a formal agreement has been submitted to and approved by the Local Planning Authority which provides for the ongoing monitoring and/or maintenance of the remediation scheme; and

(b) A Remediation Verification Report confirming that the site is suitable for its approved use has been submitted to and approved in writing by the Local Planning Authority.

Any contamination not previously identified or reported, which is encountered during the development of the site, shall be brought to the attention of the Local Planning Authority as soon as reasonably practicable. A scheme to render such contamination harmless shall be submitted to and approved in writing by the Local Planning Authority and shall thereafter be fully implemented prior to occupation of the site.

Reason: To ensure that any contamination affecting the site is dealt with in a manner that safeguards human health, the built and natural environment and controlled waters.

10. The development hereby permitted, shall be carried out in accordance with the Construction Method Statement agreed under application ref. no. 25/01106/DOC unless otherwise agreed in writing by the Local Planning Authority. The construction of the development shall only be carried out in accordance with the approved details.

Reason: In order to protect highway safety and the amenity of other users of the public highway and rights of way in accordance with Policies 5, 12, 17 and 22 of Hertfordshire's Local Transport Plan (adopted 2018).

11. Prior to any above ground works being commenced, details of all external lighting for the development, hereby permitted, shall be carried out in accordance with the details agreed under application ref.no 25/01107/DOC. This should include non-intrusive light fittings and locations designed to minimise light spill into adjoining residential properties. Thereafter, the development shall be completed in complete accordance with the approved details.

Reason: In the interests of residential amenity and to minimise light nuisance

12. The development shall be carried out in full accordance with the Ecological Enhancement Plan and details approved under planning reference 25/01108/DOC.

All ecological enhancement measures approved under planning reference 25/01108/DOC shall be fully implemented prior to the first occupation of the first dwellinghouse and shall thereafter be retained and maintained in accordance with the approved details.

Reason: To ensure the development secures biodiversity enhancements in accordance with Policy NE4 of the Local Plan.

13. The development shall be carried out in full accordance with the Sustainability Strategy and details approved under planning reference 25/01110/DOC. The

approved measures must be implemented on site for each dwelling prior to its first occupation.

Reason: To reduce carbon dioxide emissions and promoting principles of sustainable construction and the efficient use of buildings in accordance with Policies SP9 and D1 of the North Hertfordshire Local Plan 2011 to 2031.

14. No gates shall be provided across the access to the site.

Reason: In the interests of local visual amenity and to comply with Policy D1 of the North Hertfordshire Local Plan 2011 to 2031.

15. Prior to the first occupation of the first dwelling, a scheme of traffic calming measures to be submitted to, and agreed in writing by the Local Planning Authority, and installed on site and be retained thereafter.

Reason: To ensure traffic is moving at a slow speed to protect users of the footpath No.14 in accordance with Policy T1 of the Local Plan.

16. Notwithstanding the details on the proposed site layout plan, drawing no. 2023-16-PL-001, the four visitor parking spaces are to be laid with grasscrete and thereafter retained as such.

Reason: To allow for a green edge buffer to the edge of the application site in the interests in the setting of the neighbouring listed building, The Forge. LP Policy HE1.

17. The carports hereby permitted shall be retained permanently for the parking of motor vehicles ancillary to the respective dwellings and shall not be enclosed, converted or otherwise altered to provide additional accommodation or storage without the prior written permission of the Local Planning Authority.

Reason: To ensure the continued availability of appropriate off-street parking and to retain the open and lightweight appearance of the carports, in the interests of the character and appearance of the development and the surrounding area to comply with Policy D1 of the North Hertfordshire Local Plan 2011 to 2031.

Proactive Statement:

Planning permission has been granted for this proposal. Discussion with the applicant to seek an acceptable solution was not necessary in this instance. The Council has therefore acted proactively in line with the requirements of the Framework (paragraph 38) and in accordance with the Town and Country Planning (Development Management Procedure) (England) Order 2015.

Informative/s:

1. If European Protected Species (EPS), including bats and great crested newts, or evidence for them, are discovered during the course of works, work must stop immediately, and advice sought on how to proceed lawfully from an appropriately qualified and experienced Ecologist or Natural England to avoid an offence being committed.
To avoid the killing or injuring of wildlife during development, best practice should keep any areas of grass as short as possible and any longer, ruderal vegetation should be cleared by hand. To avoid creating refugia that may be utilised by wildlife, materials should be carefully stored on-site on raised pallets and away from the boundary habitats. Any trenches on site should be covered at night or have ramps to ensure that any animals that enter can safely escape, and this is particularly important if excavations fill with water. Any open pipework with an outside diameter greater than 120mm must be covered at the end of each working day to prevent animals entering / becoming trapped.
In order to protect breeding birds, their nests, eggs and young, demolition or vegetation clearance should only be carried out during the period October to February inclusive. If this is not possible then a pre-development (i.e. no greater than 48 hours before clearance begins) search of the area should be made by a suitably experienced ecologist. If active nests are found, then works must be delayed until the birds have left the nest or professional ecological advice taken on how best to proceed.
2. Environmental Health Informative:

During the construction phase the guidance in BS5228-1:2009 (Code of Practice for noise Control on construction and open sites) should be adhered to.
3. Environmental Health Informative:

During the construction works phase no activities should take place outside the following hours: Monday to Friday 08:00-18:00hrs; Saturdays 08:00-13:00hrs and Sundays and Bank Holidays: no work at any time.
4. EV CHARGING POINT SPECIFICATION INFORMATIVE:

Each charging point shall be installed by an appropriately certified electrician/electrical contractor in accordance with the following specification. The necessary certification of electrical installation should be submitted as evidence of appropriate installation to meet the requirements of Part P of the most current Building Regulations.

Cable and circuitry ratings should be of adequate size to ensure a minimum continuous current demand for the vehicle of 16A and a maximum demand of 32A (which is recommended for Eco developments).

o A separate dedicated circuit protected by an RBCO should be provided from the main distribution board, to a suitably enclosed determination point within a garage or an accessible enclosed termination point for future connection to an external charge point.

o The electrical circuit shall comply with the Electrical requirements of BS7671: 2008 as well as conform to the IET code of practice on Electric Vehicle Charging Equipment installation 2012 ISBN 978-1-84919-515-7 (PDF). This includes requirements such as ensuring the Charging Equipment integral protective device shall be at least Type A RCD (required to comply with BS EN 61851 Mode 3 charging).

o If installed in a garage all conductive surfaces should be protected by supplementary protective equipotential bonding. For vehicle connecting points installed such that the vehicle can only be charged within the building, e.g. in a garage with a (non-extended) tethered lead, the PME earth may be used. For external installations the risk assessment outlined in the IET code of practice must be adopted, and may require additional earth stake or mat for the EV charging circuit. This should be installed as part of the EV ready installation to avoid significant on cost later.

5. External materials informative:

Further to condition X (external materials), with regards to submitting details to the Council when an application to discharge the condition is made, in the first instance please provide a website link / photographs / brochure details of the proposed material choice. If it is necessary to submit an actual sample, this Council will only accept a single brick or tile or sample panel without prior agreement. If you need to submit a sample larger than this, please contact the named case officer for your discharge of condition application to determine if the materials are to be viewed on site or if it / they can be delivered to the NHDC Council Offices. In the event that a larger sample is delivered to the Council Offices please ensure that you arrange collection / removal of the sample once the discharge of condition application is agreed.

6. Obstruction of highway: It is an offence under section 137 of the Highways Act 1980 for any person, without lawful authority or excuse, in any way to wilfully obstruct the free passage along a highway or public right of way. If this development is likely to result in the public highway or public right of way network becoming routinely blocked (fully or partly) the applicant must contact the Highway Authority to obtain their permission and requirements before construction works commence. Further information is available via the County Council website at: <https://www.hertfordshire.gov.uk/services/highways-roads-and-pavements/business-and-developer-information/business-licences/businesslicences.aspx> or by telephoning 0300 1234047

7. Construction Management Plan (CMP): The purpose of the CMP is to help developers minimise construction impacts and relates to all construction activity both on and off site that impacts on the wider environment. It is intended to be a live document whereby different stages will be completed and submitted for application as the development progresses. A completed and signed CMP must address the way in which any impacts associated with the proposed works, and any cumulative impacts of other nearby construction sites will be mitigated and managed. The level of detail required in a CMP will depend on the scale and nature of development. The CMP would need to include elements of the Construction Logistics and Community Safety (CLOCS) standards as set out in our Construction Management template, a copy of which is available on the

County Council's website at:

<https://www.hertfordshire.gov.uk/services/highways-roads-andpavements/business-and-developer-information/developmentmanagement/highways-development-management.aspx>

8. Avoidance of surface water discharge onto the highway: The applicant is advised that the Highway Authority has powers under section 163 of the Highways Act 1980, to take appropriate steps where deemed necessary (serving notice to the occupier of premises adjoining a highway) to prevent water from the roof or other part of the premises falling upon persons using the highway, or to prevent so far as is reasonably practicable, surface water from the premises flowing on to, or over the footway of the highway.
9. Debris and deposits on the highway: It is an offence under section 148 of the Highways Act 1980 to deposit compost, dung or other material for dressing land, or any rubbish on a made-up carriageway, or any or other debris on a highway to the interruption of any highway user. Section 149 of the same Act gives the Highway Authority powers to remove such material at the expense of the party responsible. Therefore, best practical means shall be taken at all times to ensure that all vehicles leaving the site during construction of the development and use thereafter are in a condition such as not to emit dust or deposit mud, slurry or other debris on the highway. Further information is available by telephoning 0300 1234047.
10. New or amended vehicle crossover access (section 184): Where works are required within the public highway to facilitate a new or amended vehicular access, the Highway Authority require the construction of such works to be undertaken to their satisfaction and specification, and by a contractor who is authorised to work in the public highway. If any of the works associated with the construction of the access affects or requires the removal and/or the relocation of any equipment, apparatus or structures (e.g. street name plates, bus stop signs or shelters, statutory authority equipment etc.) the applicant will be required to bear the cost of such removal or alteration. Before works commence the applicant will need to apply to the Highway Authority to obtain their permission, requirements and for the work to be carried out on the applicant's behalf. Further information is available via the County Council website at:
<https://www.hertfordshire.gov.uk/services/highways-roads-andpavements/changes-to-your-road/dropped-kerbs/dropped-kerbs.aspx> or by telephoning 0300 1234047.
11. All distances to the collection vehicle should not exceed 15m in accordance with BS5906:2005.

Separate internal storage provision for waste should be provided in kitchen areas to support the recycling of different waste streams to support the National Planning Policy for Waste's requirements to support driving waste up the waste hierarchy.

The surface to the collection point should be uninterrupted, level with no gravel or similar covering, and have a width to enable the easy passage of wheeled bins. For two-wheeled bins this should be 1 metre, with a maximum gradient of 1:12. Storage areas should be conveniently located with easy access for residents - residents should not have to take their waste and recycling more than 30metres to

a bin storage area, or take their waste receptacles more than 25metres to a collection point, (usually kerbside) in accordance with Building Regulations Approved Document H Guidance.

Consideration should be given to parking arrangements alongside or opposite the access to individual streets. If car parking is likely in the vicinity of junctions then parking restrictions may be required to ensure access is not inhibited.

For infill applications consideration should be given to parking arrangements alongside or opposite the access to the site. If car parking is currently permitted the consideration of parking restrictions may be required to ensure access is not inhibited.

For houses, bins should be ordered direct from the Council's contractor 2 weeks in advance of first occupation to ensure they arrive in time for the first residents moving in.

Pull distances from the storage point to the collection point should not be within close proximity to parked cars.

The gravel drive makes pulling bins difficult and consideration should be given to whether this surface is the most suitable or whether bins stored closer to the collection point would be more preferable.

The applicant should note that collections occur from the kerbside and residents will be required to present their bins in this location on collection day.

Further general advice on waste provision for developments is available on our website: <http://www.north-herts.gov.uk/home/planning/waste-and-recyclingprovision>

NOTES

- 1 **Failure to satisfy conditions may invalidate this permission and/or result in enforcement action. Particular attention should be paid to the requirements of any condition in bold.**
- 2 Applicants will need to pay a compliance fee where they request confirmation in writing of any planning consent, agreement or approval (commonly known as discharge of conditions) required by one or more conditions or limitations attached to a grant of planning permission.
- 3 The fee is £309 per request or £89 where the permission relates to an extension or alteration to a dwellinghouse or other development in the curtilage of the dwellinghouse.

The request can be informal through the submission of a letter or plans, or formal through the completion of an application form and the submission of plans. Any number of conditions may be included on a single request. The form is available via the Council's website:
www.north-herts.gov.uk/home/planning/planning-applications/submit-planning-application
- 4 If the development hereby permitted is one that will require a new postal address/es then please contact the Council's **street naming and numbering service** on 01462 474431 or email SNN@north-herts.gov.uk who will advise you on how to apply for the new address/es.

Any proposed sales and/or marketing name to be adopted by the developer should be forwarded to the **street naming and numbering service**, prior to any publication of the site details and sales information.
- 5 If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.

If you want to appeal against your local planning authority's (LPA) decision then you must do so within 6 months of the date of this notice.

However, if an enforcement notice has been served for the same or very similar development the time limit is 28 days from the date of the LPA decision or 28 days from the date the enforcement notice was served.

Appeals can be made online at: <https://www.gov.uk/planning-inspectorate>. If you are unable to access the online appeal form, please contact the Planning Inspectorate to obtain a paper copy of the appeal form on tel: 0303 444 5000.

The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

The Secretary of State need not consider an appeal if it seems to him that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

In practice, the Secretary of State does not refuse to consider appeals solely because the local planning authority based their decision on a direction given by him.

6 Purchase Notices

If either the local planning authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council (District Council, London Borough Council or Common Council of the City of London) in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.

- 7 The District Council and County Highway Authority wish to ensure that, in the implementation of the development, hereby approved, the highway verge adjacent to the property is not damaged or does not become unsightly due to the stationing of skips, parking of vehicles, storing of building materials etc thereon. Your attention is, therefore, drawn to the provisions of Section 131 of the Highways Act 1980 and to the Hertfordshire County Council Bylaws 1955 (specifically relating to grass margins and verges in Letchworth Garden City) by virtue of which such actions, unless authorised by the prior grant of a licence, constitute a prosecutable offence. Persons responsible for undertaking the development and any associated works are, therefore, strongly encouraged to take appropriate steps to ensure that no breach of the said legislation occurs during the course of such activities. In the event of any damage being caused it will be expected that suitable reinstatement is undertaken upon completion of the development. Failure to do so could also result in legal action

being pursued. To obtain information regarding the issue of licences, contact Hertfordshire Highways, Hertfordshire County Council, County Hall, Pegs Lane, Hertford, SG138DQ or telephone 0300 1234 047.

8 **Cadent Gas Informative:**

Cadent Gas own and operate the gas infrastructure within the area of your development. Contact our Plant Protection Team for approval before carrying out any works on site and ensuring requirements are adhered to. Email plantprotection@cadentgas.com Alternatively you can register on www.beforeyoudig.cadentgas.com This service is free of charge.

THIS PLANNING PERMISSION DOES NOT CONSTITUTE APPROVAL UNDER BUILDING REGULATIONS AND IS NOT A LISTED BUILDING CONSENT OR CONSERVATION AREA CONSENT. IT DOES NOT CONVEY ANY APPROVAL OR CONSENT WHICH MAY BE REQUIRED UNDER ANY ENACTMENT, BYE-LAW, ORDER OR REGULATION OTHER THAN SECTION 57 OF THE TOWN AND COUNTRY PLANNING ACT 1990.

Consent for these works may be required from the Letchworth Garden City Heritage Foundation (www.leitchworth.com/heritage-foundation) under the Scheme of Management or leasehold covenants. If you do not already have their approval, you are advised to contact the Heritage Foundation on home@leitchworth.com or 01462 476017 to confirm whether you also need to submit an application to them.
