Description of Proposed Works

Please describe the proposals to alter, extend or demolish the listed building(s)

The existing rainwater goods (gutters, rainwater pipes and brackets) are plastic and not as fitted originally to the building. They are leaking currently and likely to cause damage to the fabric of the building if action is not taken. Also, they are discoloured due to age, which we believe is detrimental to the appearance and character of the rest of the building. We would like to take this opportunity to replace them with a cast iron type in keeping with the original profile and material which can be seen on a number of period properties in the area.
