For: Multiple Tree Works with Green Waste Processing

Item	Description of Work
	T1: The 45-feet-tall (approx.) Beech (<i>Fagus Sylvatica</i>) tree to undergo a crown lift of the lowest few branches in order to bring more light onto the lawn.
	T2: The set of 12-feet-tall (approx.) Yew (<i>Taxus Baccata</i>) trees growing in the corner of the garden to be cut back to the boundary on the garden and roadside whilst keeping the privacy screen to the road. T3: The 12-feet-tall (approx.) Laurel tree to be cut back as above, keeping the privacy screen between the road and home. <i>Note: The roadside of both of these hedges are to be trimmed back away from the pavement to create more space for pedestrians.</i>
