

Black EPDM roof membrane

White UPVC casement windows to match existing

Smooth white render to match existing dormer walls

This architectural drawing shows the elevation of a building facade. On the left, a vertical section of a brick wall is visible, with a vertical line indicating a break or continuation. The main part of the facade is a light-colored wall with vertical lines, possibly representing a different material or a stylized representation. The roofline is flat. The ground level is indicated by a thick horizontal line at the bottom. The drawing includes details of windows and doors, with some areas shaded to indicate depth or material.
