

An architectural elevation drawing of a brick building. The main structure is a two-story gabled house with a brick facade. It features two small, square, double-hung windows on the upper floor and a single, larger, rectangular window on the ground floor. A chimney is visible on the right side of the roofline. To the left, there is an attached structure with a lower, sloped roof, also featuring a window. The drawing uses black lines for outlines and hatching for shadows, set against a white background.
