TREE PROTECTION MEASURES
All trees and groups of trees to be retained must be physically protected from damage by enclosing the area with a three tree protection fencing, as per BS5837:2012.
The trees to be retained must be marked as shown on the drawings and the trees to be removed as shown on the drawings. The trees to be removed must be marked as shown on the drawings and the trees to be removed must be marked as shown on the drawings.
No storage of construction materials or excavation should be carried out within the tree protection zones.
