NORTH HERTFORDSHIRE DISTRICT COUNCIL

Town and Country Planning Act 1990

DECISION NOTICE

Correspondence Address:

DLA Town Planning Ltd
5 The Gavel Centre Porters Wood
St Albans
AL3 6PQ
United Kingdom

Applicant:

Tim, Pippa, and Christopher Christy,
Vaughan, and Middleton

PARTICULARS OF DEVELOPMENT

Application: 25/03050/FP

Proposal: Erection of 4 dwellings including parking and landscaping.

Location: The Ruddery, Ashwell Street, Ashwell, Hertfordshire, SG7 5QF

Plan Nos: Location Plan Block Plan 303-A1-09-P 303-A1-04-P 303-A1-05-P 303-A1-03-P 303-A1-06P Plot 1 303-A107 P Plot 2 303-A1-08- P Plots 3 and 4 14496494_SK01 Rev A

PARTICULARS OF DECISION

In pursuance of its powers under the above Act and the associated Orders and Regulations, the Council hereby **GRANT PERMISSION** for the development proposed by you in your application received with sufficient particulars on 15 December 2025, subject to the following condition(s):

Biodiversity Net Gain

1. The effect of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 is that planning permission granted for the development of land in England is deemed to have been granted subject to the condition "(the biodiversity gain condition)" that development may not begin unless:
(a) a Biodiversity Gain Plan has been submitted to the planning authority, and
(b) the planning authority has approved the plan.

The planning authority, for the purposes of determining whether to approve a Biodiversity Gain Plan if one is required in respect of this permission would be North Hertfordshire District Council.

There are statutory exemptions and transitional arrangements which mean that the biodiversity gain condition does not always apply

(<https://www.gov.uk/guidance/biodiversity-net-gain-exempt-developments>).

Based on the information available this permission is considered to be one which will require the approval of a biodiversity gain plan before development is begun because none of the statutory exemptions or transitional arrangements are considered to apply.

Planning Conditions

1. The development hereby permitted shall be begun before the expiration of 3 years from the date of this permission.

Reason: To comply with the provisions of Section 91 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

2. The development hereby permitted shall be carried out wholly in accordance with the details specified in the application and supporting approved documents and plans listed above.

Reason: To ensure the development is carried out in accordance with details which form the basis of this grant of permission.

3. No development shall take place until an Ecological Enhancement Plan (EEP) for the creation of new wildlife features such as hibernacula, the inclusion of integrated bird/bat and bee boxes in buildings/structures, has been submitted to and approved in writing by the local planning authority.

Reason: To ensure development is ecologically sensitive and secures biodiversity enhancements in accordance with the North Herts Local Plan policy NE4.

4. A No demolition/development shall take place/commence until an Archaeological Written Scheme of Investigation has been submitted to and approved by the local planning authority in writing. The scheme shall include an assessment of archaeological significance and research questions; and:
 1. The programme and methodology of site investigation and recording
 2. The programme and methodology of site investigation and recording as required by the evaluation
 3. The programme for post investigation assessment
 4. Provision to be made for analysis of the site investigation and recording
 5. Provision to be made for publication and dissemination of the analysis and records of the site investigation
 6. Provision to be made for archive deposition of the analysis and records of the site investigation
 7. Provision to be made for public outreach and interpretation

8. Nomination of a competent person or persons/organisation to undertake the works set out within the Archaeological Written Scheme of Investigation.
5. B The demolition/development shall take place/commence in accordance with the programme of archaeological works set out in the Written Scheme of Investigation approved under condition (5)
6. C The development shall not be occupied/used until the site investigation and post investigation assessment has been completed in accordance with the programme set out in the Written Scheme of Investigation approved under condition (5) and the provision made for analysis and publication where appropriate.

Reason: To protect any archaeological finds. Local Plan policy HE4.

7. Details and/or samples of materials to be used on all external elevations and the roof of the development hereby permitted shall be submitted to and approved in writing by the Local Planning Authority before the development is commenced and the approved details shall be implemented on site.

Reason: To ensure that the development will have an acceptable appearance which does not detract from the appearance and character of the surrounding area and to comply with Policy D1 of the North Hertfordshire Local Plan 2011 to 2031.

8. Before beginning the development, the developer must provide the local planning authority with a report for the management of the construction of the development, which sets out the proposed development hours of operation and how any adverse impact of noise, dust, vibration and traffic on adjoining owners or occupiers will be mitigated.

Reason: In order to comply with Condition AA.2 (3b) of Schedule 2, Part 1, Class AA of the Town and Country Planning (Permitted Development) (England) Order 2015

9. In the event that contamination is found at any time when carrying out the approved development, it shall be reported in writing immediately to the Local Planning Authority. An investigation and risk assessment shall then be undertaken by a competent person, in accordance with BS10175:2011. A written report of the findings should be forwarded for approval to the Local Planning Authority. Following completion of remedial measures a verification report shall be prepared that demonstrates the effectiveness of the remediation carried out. No part of the development should be occupied until all remedial and validation works are approved in writing.

Reason: To prevent unacceptable risk to Human Health and Controlled Waters and to prevent pollution of the Environment in accordance with the aims and Paragraphs 187(f), 196 and 197 of the National Planning Policy Framework (December 2024)

10. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 as amended no development as set out in Classes B and C of Part 1 of Schedule 2 to the Order, (or any subsequent

Statutory Instrument which revokes, amends and/or replaces those provisions) shall be carried out without first obtaining a specific planning permission from the Local Planning Authority.

Reason: Given the nature of this development, the Local Planning Authority considers that development which would normally be "permitted development" should be retained within planning control in the interests of the character and amenities of the area and to comply with Policy D1 and/or Policy D3 of the North Hertfordshire Local Plan 2011 to 2031.

11. Prior to the commencement of above ground construction works of the development hereby permitted full details of a comprehensive hard and soft landscaping scheme (including planting details) and all boundary treatments shall be submitted to and approved in writing by the Local Planning Authority.

All approved hard standing and boundary treatments shall be completed prior to the first occupation of the development.

The approved soft landscaping / planting details shall be carried out before the end of the first planting season following either the occupation of the (first) dwelling or the completion of the development, whichever is the sooner; and any trees or plants which, within a period of 5 years from the completion of the development, die, are removed or become seriously damaged or diseased, shall be replaced during the next planting season with others of similar size and species, unless the Local Planning Authority agrees in writing to vary or dispense with this requirement.

Reason: To ensure the development is comprehensively landscaped in the interests of visual amenity. Local Plan Policies D1 and N2.

12. None of the trees or hedgerows to be retained on the application site shall be felled, lopped, topped, uprooted, removed or otherwise destroyed or killed without the prior written agreement of the Local Planning Authority.

Reason: To safeguard and enhance the appearance of the completed development and the visual amenity of the locality.

13. Before the commencement of any other works on the site, trees to be retained shall be protected by the erection of temporary chestnut paling or chain link fencing of a minimum height of 1.2 metres on a scaffolding framework, located at the appropriate minimum distance from the tree trunk in accordance with Section 4.6 of BS5837:2012 'Trees in relation to design, demolition and construction - Recommendations, unless in any particular case the Local Planning Authority agrees to dispense with this requirement. The fencing shall be maintained intact for the duration of all engineering and building works. No building materials shall be stacked or mixed within 10 metres of the tree. No fires shall be lit where flames could extend to within 5 metres of the foliage, and no notices shall be attached to trees.

Reason: To prevent damage to or destruction of trees to be retained on the site in the interests of the appearance of the completed development and the visual amenity of the locality, and to comply with Policy NE2 of the North Hertfordshire Local Plan 2011 to 2031

14. Prior to the commencement of development, a survey shall be undertaken to identify the root protection zones of all trees to be retained where construction or excavation works are proposed. Where roots with a diameter of 25mm or greater are identified, any excavation within the root protection zones shall be carried out by hand. A construction method statement detailing safe construction practices within the identified root protection zones, and demonstrating compliance with BS5837:2012 - "Trees in relation to design, demolition and construction - Recommendations" and BS3998:2010 "Recommendations for tree work", shall be submitted to and approved in writing by the Local Planning Authority before development commences. The development shall thereafter be carried out fully in accordance with the approved details.

Reason: To prevent damage to or destruction of the trees to be retained on the site in the interests of the appearance of the completed development and the visual amenity of the locality, and to comply with Policy NE2 of the North Hertfordshire Local Plan 2011-2031.

15. Prior to the first occupation of the development hereby approved, a scheme for the screening of the bin stores and the details of external cycle parking shall be submitted to and approved in writing by the LPA. The approved scheme shall be installed prior to occupation and the development and thereafter retained.

Reason: To ensure acceptable design and provision of cycle parking in accordance with Policies D1 and T2 of the adopted North Hertfordshire Local Plan 2011 - 2031.

16. Prior to any above ground works being commenced, full details of all external lighting for the development shall be submitted to and approved in writing by the Local Planning Authority. This should include non-intrusive light fittings and locations designed to minimise light spill into adjoining residential properties. Thereafter, the development shall be completed in complete accordance with the approved details.

Reason: In the interests of residential amenity and to minimise light nuisance

17. No gates shall be provided across the access to the site.

Reason: In the interests of local visual amenity and to comply with Policy D1 of the North Hertfordshire Local Plan 2011 to 2031.

18. Prior to the first occupation of the dwellings hereby approved, details of the Air Source Heat Pump shall be submitted to the LPA and approved in writing and installed on site.

Reason: To ensure that there are no adverse impacts on the design of the dwelling hereby approved or adverse harm on the amenities of the neighbouring occupiers. Local Plan Policies D1 and D3.

Proactive Statement:

Planning permission has been granted for this proposal. The Council acted proactively through early engagement with the applicant at the pre-application stage which led to improvements to the scheme. The Council has therefore acted proactively in line with the requirements of the Framework (paragraph 38) and in accordance with the Town and Country Planning (Development Management Procedure) (England) Order 2015.

Informative/s:**1. EV Charging Point Specification:**

A charging point shall be installed by an appropriately certified electrician/electrical contractor in accordance with the following specification. The necessary certification of electrical installation should be submitted as evidence of appropriate installation to meet the requirements of Part P of the most current Building Regulations. Cable and circuitry ratings should be of adequate size to ensure a minimum continuous current demand for the vehicle of 16A and a maximum demand of 32A (which is recommended for Eco developments) o A separate dedicated circuit protected by an RBCO should be provided from the main distribution board, to a suitably enclosed termination point within a garage or an accessible enclosed termination point for future connection to an external charge point. o The electrical circuit shall comply with the Electrical requirements of BS7671: 2008 as well as conform to the IET code of practice on Electric Vehicle Charging Equipment installation 2012 ISBN 978-1-84919-515-7 (PDF). This includes requirements such as ensuring the Charging Equipment integral protective device shall be at least Type A RCD (required to comply with BS EN 61851 Mode 3 charging). o If installed in a garage all conductive surfaces should be protected by supplementary protective equipotential bonding. For vehicle connecting points installed such that the vehicle can only be charged within the building, e.g. in a garage with a (nonextended) tethered lead, the PME earth may be used. For external installations the risk assessment outlined in the IET code of practice must be adopted, and may require additional earth stake or mat for the EV charging circuit. This should be installed as part of the EV ready installation to avoid significant on cost later. o A list of authorised installers (for the Government's Electric Vehicle Homecharge Scheme) can be found at <https://www.gov.uk/government/organisations/office-for-lowemission-vehicles> o UK Government issued legislation in 2021 to require domestic EV charge points to be smart, thus we recommend that all charge points will be capable of smart charging, as detailed in UK Gov regulations.

2. AN) The Public Right of Way(s) should remain unobstructed by vehicles, machinery, materials, tools and any other aspects of the construction during works. Safe passage past the site should be maintained at all times for the public using this route. The condition of the route should not deteriorate as a result of these works. Any adverse effects to the surface from traffic, machinery or materials (especially overflows of cement & concrete) should be made good by the applicant to the satisfaction of the Highway Authority. No materials shall be stored or left on the Highway including Highway verges. If the above conditions cannot reasonably be achieved, then a Temporary Traffic Regulation Order (TTRO) would

be required to close the affected route and divert users for any periods necessary to allow works to proceed, for which a fee would be payable to Hertfordshire County Council. Further information is available via the County Council website at <https://www.hertfordshire.gov.uk/services/recycling-waste-and-environment/countryside-access/rights-of-way/rights-of-way.aspx> or by contacting Rights of Way, Hertfordshire County Council on 0300 123 4047.

AN) Construction Management Plan (CMP): The purpose of the CMP is to help developers minimise construction impacts and relates to all construction activity both on and off site that impacts on the wider environment. It is intended to be a live document whereby different stages will be completed and submitted for application as the development progresses. A completed and signed CMP must address the way in which any impacts associated with the proposed works, and any cumulative impacts of other nearby construction sites will be mitigated and managed. The level of detail required in a CMP will depend on the scale and nature of development. The CMP would need to include elements of the Construction Logistics and Community Safety (CLOCS) standards as set out in our Construction Management template, a copy of which is available on the County Council's website at: <https://www.hertfordshire.gov.uk/services/highways-roads-and-pavements/business-and-developer-information/development-management/highways-development-management.aspx>

AN) Roads to remain private: The applicant is advised that all new roads* / the access routes marked on the submitted plans * / the access routes [describe*] [*delete as appropriate] associated with this development will remain unadopted (and shall not be maintained at public expense by the highway authority). At the entrance of the new estate the road name plate should indicate that it is a private road and the developer should put in place permanent arrangements for long-term maintenance.

AN) New or amended vehicle crossover access (section 184): Where works are required within the public highway to facilitate a new or amended vehicular access, the Highway Authority require the construction of such works to be undertaken to their satisfaction and specification, and by a contractor who is authorised to work in the public highway. If any of the works associated with the construction of the access affects or requires the removal and/or the relocation of any equipment, apparatus or structures (e.g. street name plates, bus stop signs or shelters, statutory authority equipment etc.) the applicant will be required to bear the cost of such removal or alteration. Before works commence the applicant will need to apply to the Highway Authority to obtain their permission, requirements and for the work to be carried out on the applicant's behalf. Further information is available via the County Council website at: <https://www.hertfordshire.gov.uk/services/highways-roads-and-pavements/changes-to-your-road/dropped-kerbs/dropped-kerbs.aspx> or by telephoning 0300 1234047

The Council's Privacy Notice is available on our website: <https://www.north-herts.gov.uk/home/council-data-and-performance/data-protection/information-management-gdpr>

NOTES

- 1 **Failure to satisfy conditions may invalidate this permission and/or result in enforcement action. Particular attention should be paid to the requirements of any condition in bold.**
- 2 Applicants will need to pay a compliance fee where they request confirmation in writing of any planning consent, agreement or approval (commonly known as discharge of conditions) required by one or more conditions or limitations attached to a grant of planning permission.
- 3 The fee is £298 per request or £86 where the permission relates to an extension or alteration to a dwellinghouse or other development in the curtilage of the dwellinghouse.

The request can be informal through the submission of a letter or plans, or formal through the completion of an application form and the submission of plans. Any number of conditions may be included on a single request. The form is available via the Council's website:
www.north-herts.gov.uk/home/planning/planning-applications/submit-planning-application
- 4 If the development hereby permitted is one that will require a new postal address/es then please contact the Council's **street naming and numbering service** on 01462 474431 or email SNN@north-herts.gov.uk who will advise you on how to apply for the new address/es.

Any proposed sales and/or marketing name to be adopted by the developer should be forwarded to the **street naming and numbering service**, prior to any publication of the site details and sales information.
- 5 If you are aggrieved by the decision of your local planning authority (LPA) to refuse permission for the proposed development or to grant it subject to conditions, then

you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.

If you want to appeal against your local planning authority's decision then you must do so within 6 months of the date of this notice.

However, if an enforcement notice has been served for the same or very similar development the time limit is 28 days from the date of the LPA decision or 28 days from the date the enforcement notice was served.

Appeals can be made online at: <https://www.gov.uk/appeal-planning-decision>

If you are unable to access the online appeal form, please contact the Planning Inspectorate to obtain a paper copy of the appeal form on tel: 0303 444 5000.

The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

The Secretary of State need not consider an appeal if it seems to him that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

In practice, the Secretary of State does not refuse to consider appeals solely because the local planning authority based their decision on a direction given by him.

6 Purchase Notices

If either the local planning authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council (District Council, London Borough Council or Common Council of the City of London) in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.

- 7 The District Council and County Highway Authority wish to ensure that, in the implementation of the development, hereby approved, the highway verge adjacent to the property is not damaged or does not become unsightly due to the stationing of skips, parking of vehicles, storing of building materials etc thereon. Your attention is, therefore, drawn to the provisions of Section 131 of the Highways Act 1980 and to

the Hertfordshire County Council Bylaws 1955 (specifically relating to grass margins and verges in Letchworth Garden City) by virtue of which such actions, unless authorised by the prior grant of a licence, constitute a prosecutable offence. Persons responsible for undertaking the development and any associated works are, therefore, strongly encouraged to take appropriate steps to ensure that no breach of the said legislation occurs during the course of such activities. In the event of any damage being caused it will be expected that suitable reinstatement is undertaken upon completion of the development. Failure to do so could also result in legal action being pursued. To obtain information regarding the issue of licences, contact Hertfordshire Highways, Hertfordshire County Council, County Hall, Pegs Lane, Hertford, SG138DQ or telephone 0300 1234 047.

8 **Cadent Gas Informative:**

Cadent Gas own and operate the gas infrastructure within the area of your development. Contact our Plant Protection Team for approval before carrying out any works on site and ensuring requirements are adhered to. Email plantprotection@cadentgas.com Alternatively you can register on www.beforeyoudig.cadentgas.com This service is free of charge.

THIS PLANNING PERMISSION DOES NOT CONSTITUTE APPROVAL UNDER BUILDING REGULATIONS AND IS NOT A LISTED BUILDING CONSENT OR CONSERVATION AREA CONSENT. IT DOES NOT CONVEY ANY APPROVAL OR CONSENT WHICH MAY BE REQUIRED UNDER ANY ENACTMENT, BYELAW, ORDER OR REGULATION OTHER THAN SECTION 57 OF THE TOWN AND COUNTRY PLANNING ACT 1990.
