Caveat - Additional Charges

- If the works over run, or a visit is aborted due to no fault of ours.
- In the event that additional drainage is required that has not been quoted
- In the event that the Client requests additional work to be completed (works will not be completed without an official PO number or variation of works)
- In the event of any additional unforeseen/adhoc works required (works will not be completed without an official PO number or variation of works) Setter will charge £650 per day if we are unable to proceed until this is approved
- In the event that Asbestos is discovered whilst we are carrying out this project, work will cease immediately. Setter will cordon the area off and inform the client of our findings. Any costs arising will be the responsibility of the customer
- If welfare and water facilities are not available on site in line with (Health, Safety and Welfare) Regs 1992
- Should you require 2 m high Heras fence instead of standard 1m high orange mesh fencing
- Underground service plans to be provided by the client. If this is not provided and Setter do hit any utilities as a result, the full cost of repairs will be chargeable.

Guarantees & Accreditations

- Please refer to individual guarantees provided with this quote
- Full RAMS and all relevant H&S documents provided.
- Public liability insurance provided - £10 million cover.
- CITB Site Supervisor accredited site managers.
- CHAS accredited company.
- BSG Health & Safety Certified
- Member of the Association of Play Industries (API)
- All Sales and Installations teams are DBS checked

Inspections

- In accordance with the children's outdoor play equipment safety standard BS EN 1176 before use, an inspection is recommended on all new play equipment and safety surfacing (or following significant maintenance work) with a written report. An annual inspection is required with a written report annually thereafter

Additional Information

- Any holes created by removals to be floated over flush with concrete unless stated otherwise
- Customer to clear area of any loose items.
- Removal costs include clearance of waste from site and the statutory requirements of licensed disposal of rubber and commercial waste unless otherwise stated.
- We are unable to offer any guarantee when patch repairing existing wetpour/mulch, as the bond between new and existing rubber can expand and contract at differing rates which can lead to separation over time. Colour used in repairs may vary due to manufacturer so we recommend using a contrasting colour
- Although every care will be taken, our quotation does not cover any damages that may occur over the access route. We can provide ground protection costs for the access route if required and this will be itemised on your quotation.
- We are unable to lay markings onto a dirty surface, because it will not adhere

Terms and Conditions

Our products are made to order so please ask for current lead times

Installation prices are based on concurrent works.

Please note, upon agreeing to the quotation you are agreeing to abide by our terms and conditions

Payment terms are 25% deposit on order and 7 days on final invoice.

All queries must be submitted within 48 hours following receipt of invoice, to accounts@setterplay.co.uk
