Dear Henry,

Re: Replacement of existing dilapidated barn to provide one self-contained dwelling including basement, parking and landscaping. | Marshfield Barn New Inn Road Hinxworth Hertfordshire SG7 5HB

ARCHAEOLOGICAL IMPLICATIONS

Thank you for consulting me on the above application.

The site lies within Area of Archaeological Significance no.2 as identified in the Local Plan. The Historic Environment Record (HER) records that Roman burials were found in the 19th century, close to Hinxworth Place (HER4037). Iron Age and Roman occupation in the vicinity is suggested by the results of fieldwalking nearby (HER11919). Evidence of medieval occupation includes the two Listed buildings (see below), the remains of fishponds (HER4042) and cropmarks; including ridge and furrow (HER11531).

Both Hinxworth Place and a barn are Listed as being of architectural and historic significance. The barn (HER12724) dates from the 16th century. Hinxworth Place dates from the 15th century (HER4051, 15841). Marshfield Barn, the subject of this planning application appears to be modern.

In this case the proposed development should be regarded as likely to have an impact on heritage assets of archaeological interest and I recommend that the following provisions be made, should you be minded to grant consent:

1. the archaeological monitoring of all groundworks related to the development, including foundation trenches, service trenches, hard landscaping, and all other ground impact, including a contingency for the preservation or further excavation of any remains encountered;

2. the analysis of the results of the archaeological work with provision for the subsequent production of a report and an archive, and the publication of the results;
3. such other provisions as may be necessary to protect the archaeological interests of the site;

I believe that these recommendations are both reasonable and necessary to provide properly for the likely archaeological implications of this development proposal. I further believe that these recommendations closely follow the policies included within Policy 16 (para. 211, etc.) of the National Planning Policy Framework. In this case three appropriately worded conditions on any planning consent would be sufficient to provide for the level of investigation that this proposal warrants. I suggest the following wording:

A No demolition/development shall take place/commence until an Archaeological Written Scheme of Investigation has been submitted to and approved by the local planning authority in writing. The scheme shall include an assessment of archaeological significance and research questions; and:

- 1. The programme and methodology of site investigation and recording*
- 2. The programme for post investigation assessment*
- 3. Provision to be made for analysis of the site investigation and recording*
- 4. Provision to be made for publication and dissemination of the analysis and records of the site investigation*
- 5. Provision to be made for archive deposition of the analysis and records of the site investigation*
- 6. Nomination of a competent person or persons/organisation to undertake the works set out within the Archaeological Written Scheme of Investigation.*

B The demolition/development shall take place/commence in accordance with the programme of archaeological works set out in the Written Scheme of Investigation approved under condition (A)

C The development shall not be occupied/used until the site investigation and post investigation assessment has been completed in accordance with the programme set out in the Written Scheme of Investigation approved under condition (A) and the provision made for analysis and publication where appropriate.

If planning consent is granted, I will be able to provide detailed advice concerning the requirements for the investigations, and to provide information on professionally accredited archaeological contractors who may be able to carry out the necessary work.

Please do not hesitate to contact me should you require any further information or clarification.

Yours sincerely,

Andy Instone
