Details of the pre-application advice received

Paragraph 155 is relevant, and its exceptions are set out below:... d) the re-use of buildings provided that the buildings are of permanent and substantial construction;... The principle of development may be supported by the re use of the building as set out within exception d). The intensity of the residential use would remain largely the same and vehicle movements are unlikely to be significantly higher than existing. I consider this to be acceptable in the green belt. For these reasons, the proposal may not constitute inappropriate development and could be compliant with Local Plan policy SP5 and the provisions within Section 13 of the NPPF.

The property is not within a village boundary, the site is not considered remote given its proximity to Codicote, a Category A Village or Welwyn just over the border.

Any future application would need to make sure that at least two parking spaces for vehicles.

Any future application must include an ecological survey of the site with demonstratable measures being put in place to provide a net gain in on-site biodiversity.

Conclusion: Conversion and change of use of the existing stable building with the removal of the other outbuildings on the site, subject to design, scale and boundary and residential furniture within the proposed garden the proposal may be supported."

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
