Dear Ms Reynard

Re 25/01696/0P Land east of Drivers Way

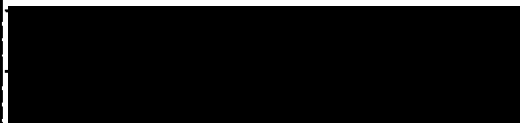

I wish to register my strong objection to this proposal. There are many reasons for this. We already have seen the character of Pirton changing since the developments of Cala Homes and Spitfire Homes bringing a huge number of new houses to our village. In percentage terms I am sure Pirton has accepted more than its fair share of new build. We see more traffic on the narrow roads; more dangers to pedestrians particularly on the Howell Road at the 12 Apostles. It seems to me that no thought is ever given to the impact on the infrastructure of new development. New houses

are built but the services remain the same. No new roads, no new cycle paths, no new bus routes, no new education facilities, and so on. I understand also the water and sewage works are over stretched. I have seen evidence of this for myself. I know people have to live somewhere but surely there should be other alternatives such as brownfield sites, rather than swallowing up yet more productive farmland and harming for ever the character of our village.

Please reject this proposal

Thank you for your attention

Yours sincerely
