Response to Planning application from Hertfordshire County Council (T and CP GDP Order 2015)

Director of Planning

North Hertfordshire Council
Council Offices
Gernon Road
Letchworth Garden City
Hertfordshire
SG6 3JF

District ref: 25/02941/FP
HCC ref: NH/27419/2025
HCC received: 4 December 2025
Area manager: Manjinder Sehmi
Case officer: Paul Marshall

Location

7 Highbury Road, Hitchin, Hertfordshire, SG4 9RW

Application type

Full Application

Proposal

Full Planning Permission : Change of use of first, second and third floors from residential (Use Class C3) to commercial (Use Class E).

Recommendation

Notice is given under article 22 of the Town and Country Planning (Development Management Procedure) (England) Order 2015 that Hertfordshire County Council as Highway Authority does not wish to restrict the grant of permission subject to the following conditions:

CON1) Prior to the first commencement of the development hereby permitted, a plan for cycle storage is to be provided and be designed in line with design standards contained in Chapter 11 of the Cycle Infrastructure Design' DfT Local Transport Note 1/20 (July 2020). Prior to first occupation the approved design shall be fully implemented and thereafter retained for this purpose.

Reason: To ensure the provision of adequate cycle parking that meets the needs of occupiers of the proposed development and in the interests of encouraging the use of sustainable modes of transport in accordance with Policies 1, 5 and 8 of Hertfordshire's Local Transport Plan (adopted 2018)

HCC as Highway Authority recommends inclusion of the following Advisory Note (AN) to ensure that any works within the highway are carried out in accordance with the provisions of the Highway Act 1980.

AN1) Storage of materials: The applicant is advised that the storage of materials associated with the construction of this development should be provided within the site on land which is not public highway, and the use of such areas must not interfere with the public highway. If this is not possible, authorisation should be sought from the Highway Authority before construction works commence. Further information is available via the County Council website at:

<https://www.hertfordshire.gov.uk/services/highways-roads-and-pavements/business-and-developer-information/business-licences/business-licences.aspx> or by telephoning 0300 1234047.

AN2) Obstruction of highway: It is an offence under section 137 of the Highways Act 1980 for any person, without lawful authority or excuse, in any way to wilfully obstruct the free passage along a highway or public right of way. If this development is likely to result in the public highway or public right of way network becoming routinely blocked (fully or partly) the applicant must contact the Highway Authority to obtain their permission and requirements before construction works commence. Further information is available via the County Council website at:

<https://www.hertfordshire.gov.uk/services/highways-roads-and-pavements/business-and-developer-information/business-licences/business-licences.aspx> or by telephoning 0300 1234047.

AN3) Construction Management Plan (CMP): The purpose of the CMP is to help developers minimise construction impacts and relates to all construction activity both on and off site that impacts on the wider environment. It is intended to be a live document whereby different stages will be completed and submitted for application as the development progresses. A completed and signed CMP must address the way in which any impacts associated with the proposed works, and any cumulative impacts of other nearby construction sites will be mitigated and managed. The level of detail required in a CMP will depend on the scale and nature of development.

The CMP would need to include elements of the Construction Logistics and Community Safety (CLOCS) standards as set out in our Construction Management template, a copy of which is available on the County Council's website at:

<https://www.hertfordshire.gov.uk/services/highways-roads-and-pavements/business-and-developer-information/development-management/highways-development-management.aspx>

COMMENTS

The proposals are for Full Planning Permission: Change of use of first, second and third floors from residential (Use Class C3) to commercial (Use Class E).

Context:

Highbury Road is an unclassified land provides a local access distributor function in the road hierarchy Highbury Road is highway maintainable at public expense. A 30mph speed limit applies. On Hertfordshire County Council's Place and Movement network Highbury Road is classed as P2/M1

(Residential Street). No reportable highway accidents recorded within the immediate vicinity of the application site (5-year rolling). No Public Right of Way (as shown on the Public Rights of Way Map) directly affects the site or would be affected by the proposal. The county council considers Highbury Road not to be a traffic sensitive road.

Policy Review:

The key documents used to assess the application are

Manual for Streets 2007

National Planning Policy Framework (July 2021)

Hertfordshire County Council's (HCC) Local Transport Plan-4 [2018-2031, May 2018]

Cycle Infrastructure Design Guidance (Department for Transport Local Transport Note July 2020)

HCC's Place & Movement Planning Design Guidance (adopted in March 2024)

PLANNING HISTORY

The application site has no previous planning history.

DRAWINGS

The Highway Authority note the submission of materials in support of the planning application, including drawing numbers: 01, 02, 03B, 04B, 05, and Planning Design & Access Statement (PDAS).

ACCESSIBILITY

'Cycle Infrastructure Design' DfT Local Transport Note 1/20 (July 2020) recommends for cycle parking storage should be 2m (1.8m is acceptable) in length by 0.3m space between cycles. There should be parking for 1 cycle per dwelling. Outside cycle parking should be covered and lockable. The provision of well-located, safe and secure cycle parking for residents and visitors is a key factor in encouraging people to cycle as an alternative to using the private car. The PDAS states:

Cycle parking will be provided within the site for both staff and patients.

This is welcomed by the Highway Authority. It is for the Local Planning Authority to determine the number of cycle spaces. These must be covered and lockable. Please see Condition 1 above

PARKING

The LPA shall be responsible for assessing the proposed development against local parking standards and to satisfy for itself that any level of parking it requires can be achieved within the boundary of the site and not overhang the highway, including the highway footway / grass verge / vehicle crossover. However, there are no proposed changes to the existing parking arrangements

ACCESS

There are no proposed changes to the existing access.

EMERGENCY ACCESS

Consistent with the National Planning Policy Framework (2023), paragraph 116 (d), applications for development should allow for access by emergency vehicles. Guidance is set out in Manual for Streets (MfS) (6.7.2). HCC's Place and Movement Planning Design Guide (P&MPDG) (Part 2 Chapter 4). Requirements are set out in the Building Regulations: Fire Safety Approved Document B, Vol 1, Dwellings, 2010 (as subsequently amended). Access for a pumping appliance should be provided to within 45m of a single dwelling house (and within 45m of all points within the dwelling house). As far as it can be reasonably ascertained from submitted plans, the proposed development would be within the recommended emergency vehicle access distance from the highway.

REFUSE / RECYCLING

The proposals for recycling bin storage must be in line with Manual for Streets MfS 6.8.9 residents should not be required to carry waste more than 30m and be within 25m of the kerbside/bin collection point.

CONSTRUCTION METHOD STATEMENT (CMS) It is important that a CMS is provided considering the busy nature of Highbury Road. The statement must have or be shown as a drawing of the construction site and the dedicated areas within. These should include but not limited to, construction parking area, wheel washing, and storage area. Please see informative above.

CONCLUSION

Should the LPA be minded to approve the application please note the above. informatives. This level of development is unlikely to generate any extra movements which would ultimately lead to demonstrable harm to the highway network in terms of free flow and capacity, therefore; the highway authority would not wish to restrict the grant of planning permission.

Signed

Paul Marshall
