Dear Sir / Madam,

VMO2 and Cellnex UK

Notification under the Electronic Communications Code Regulations of the intention to install Upgraded Electronic Communications Apparatus at:

Ickleford Cadwell Lane, Cadwell Lane, Ickleford, Hertfordshire, SG4 0SL (NGR: E: 518882 N: 230974)

We write on behalf of mobile network operator (MNO) VMO2, in conjunction with Cellnex UK in relation to a proposal to carry out permitted development at the above site, which is owned or managed by Cellnex, a radio site infrastructure provider.

This letter and its enclosures set out the intention to use permitted development rights to install electronic communications apparatus at this site. The apparatus will form part of the operators new 5G mobile networks. There is significant UK Government support for the delivery of 5G, particularly as this new connectivity will be a step change from earlier generations of mobile connectivity and will be critical to economic growth and sustainable communities.

The operators are Electronic Communications Code Operators under the provisions of the Communications Act 2003 and operate in accordance with the Electronic Communications Code (Conditions and Restrictions) Regulations 2003, as amended.

Please therefore accept this letter and enclosures as advanced notification by the operator(s), as may be required, under the relevant conditions of The Electronic Communications Code (Conditions and Restrictions) Regulations 2003, as amended.

The works at this site, which constitute permitted development under Class A of Part 16 of Schedule 2 to the Town and Country Planning (General Permitted Development) (England) Order 2015, as amended (the GPDO), involve the installation of the following electronic communications apparatus:

- The removal of 6 no. antenna, and the installation of 9 no. replacement antenna and ancillary radio equipment onto existing support poles at existing lattice mast.
- Ancillary development thereto.

The following information is enclosed:

- A site plan showing the location
- Drawing reference numbers:

100-11A Proposed Site Plan
150-11A Proposed elevation

To assist, the minor works shown are shown on the plans as proposed new antenna in green and existing in brown, new steelwork is in blue.

The proposal does not consist of any development specified in Article A.1 or Condition A.2(3) of Part 16 of Schedule 2 of the Town and Country Planning (General Permitted Development) (England) Order 2015, as amended, which requires either an application for planning permission or an application for a determination as to whether the Authority's approval is required for the siting and appearance of the development.

As with all mobile installations, we can confirm the installation of the apparatus has been designed and will be operated within the relevant ICNIRP guidelines on public exposure. An ICNIRP certificate can be provided on request.

Other Engagement

In accordance with best practice guidelines and the advice contained in national policy, the operators are committed to undertaking wider engagement with the local community and other stakeholders who may have an interest in the development. The proposal has, therefore, been assessed using Traffic Light Rating Model in order to establish an appropriate level of engagement. The proposal has been categorised as green, and we therefore have not carried out any wider community engagement reflecting the minor nature of the work.

Contact Details

All queries in relation to this Notification should be addressed to the undersigned in the first instance.

The following contact details are provided should the Council, members of the public or other stakeholders wish to raise queries direct with Cellnex.

For Cellnex:

Cellnex, Town Planning Team, R+, 4th Floor, 2 Blagrove Street, Reading, RG1 1AZ

Email: planning@cellnextelecom.co.uk

The proposal is not subject to an application for planning permission or prior approval, but nonetheless we offer you the opportunity to make any comments on the details of the development or our engagement strategy.

If you do have any comments to make, require a meeting to discuss the proposal or wish to have an accompanied visit to the site, please let us know within 14 days of the receipt of this letter.

Yours faithfully,

Matthew McGimpsey
