barley-8 - Cons Area.pdf; P&C.pdf;

Dear Sir, Madam,

UK Power Networks are proposing to remove a small span of existing overhead line and replace this with underground cable as shown on the attached plan.

After undertaking an environmental check I note the footpath to the north is part of the Barley Conservation area, with the cabling works falling to the south and therefore outside of this. To allow for access there will be some vegetation clearance and we have instructed our ecologists, ADAS, who have undertaken an on site EcoCheck and provided us with mitigation to adhere to at the point works commence.

I would be grateful if the council could confirm any comments on this proposal, or requirement for further information at this stage.

Kind regards,

Matt

Matthew Drewry MRICS
