Please state the condition number(s) to which this application relates

Condition number(s)

Condition number 4: A lighting design strategy for biodiversity for the site shall be submitted to and approved in writing by the local planning authority. The strategy shall; a) identify those areas/features on site to which bats and other nocturnal species are particularly sensitive and that are likely to cause disturbance in or around their breeding sites and resting places, or along important routes used to reach key areas of their territory, for example, for foraging, and b) show how and where external lighting will be installed (through the provision of appropriate lighting contour plans and technical specifications) so that it can be clearly demonstrated that areas to be lit will not disturb or prevent the above species using their territory or having access to their breeding sites and resting places. All external lighting shall be installed in accordance with the specifications and locations set out in the strategy, and these shall be maintained thereafter in accordance with the strategy.
