Good afternoon, Daniel

Further to our earlier telephone conversation, we have had further discussions with our Senior Planning Officer and they have advised that we do not normally include the removal of trees in our descriptions as this is not our normal process to do so. However, the case officer will pick up that a tree is being removed as part of the application and may add a condition to replant a tree as part of the planning permission. Therefore, please could you confirm that you are happy with the following proposal description.

Single storey side and rear extension. Installation of front roof light, second floor side window and alterations to existing rear dormer window.

Please accept our apologies once again for requesting completion of the tree application form.

Many thanks.

Kind regards

Diane Joseph
