4 King James Way
ROYSTON, SG8 7EF

Dear Mr. Rea,

Rei plans to erect flats behind Thurnalls,
King James Way.

It is with deep regret I learnt there are plans to erect flats, as quoted above.

It will be a "death-trap." Cars come off the main road, do not slow down, and the entrance is on the bend.

Parking will be a problem. Two car families and visitors will not pay to park. People already use this road for free parking. (There is a vehicle opposite my drive very frequently!)

Building the flats will disturb the wildlife. A passer-by recently photographed a nuntjak. There are owls here - I get owl pellets in my garden. My neighbour next door frequently sees bats in her garden. The trees in King James Way are protected.

PLEASE vote against this plan.

Yours faithfully,

B. G. Watkins (HRS)
