

96 High Street,
Barkway, SG8 8EF
Plan of trees

Species: Cotinus
Proposed work: Pollard the tree to reduce the overall height of the shrub by 1/3rd to allow more light and to balance the shrub. Some of the smaller branches have died back following the fire at the adjacent properties in 2024, coppicing would help to revive them

- Key
- No works proposed ●
 - Pruning proposed ○
 - Removal proposed ●

Species: Yew Tree
Proposed work: None - retain

Species: Maple, variagated
Proposed work: None - retain

Species: Apple tree
Proposed work: None

Species: Multi-stemmed (coppiced) alder
Proposed work: Removal of three trunks (retain four trunks). Reduce the tree by 1/3rd to allow natural light. This was previously carried out in 2019 (with permission), but the tree has regrown vigorously and is close to the adjacent house's roof.

Species: Sycamore
Proposed work: Reduce the tree by a 1/3rd to allow natural light. This was previously carried out in 2019 (with permission), but the tree has regrown vigorously.

Species: Conifer
Proposed work: None

Tree A: Multi stemmed alder
