This is wonderful. Thank you for the quick reply Allison. The revised description looks good to me.

Best wishes,
James

Good morning James,

I hope you are well?

Thank you for the attached, which I have added to the files.

I have given them a proposal description of: ***Installation of no.8 rear and side windows and one French door to rear with energy-efficient timber-framed windows with vacuum insulated glass (VIG) to replace existing no.8 rear and side windows and rear French door.*** I hope this is acceptable to you?

I will validate the applications now and send you the acknowledgement letters tomorrow. The letters will give you the contact details for the planning officer and the expected determination date.

Kind regards,

Allison Fox

Subject: Invalid Notification for Application No 26/01136/FPH

Dear Allison,

Thank you for your letter. It has taken me a little while to gather the documents you have requested, but I hope the following will suffice.

1. Schnauber Windows has returned the drawings of the proposed windows with a metric scale bar. Previously, these were in two PDFs, but they are now in one file ("James-Layton_Proposed-windows-A3.pdf").
2. I have created a new PDF showing all of the windows on the house, both front and back. The windows on the back and one end that are proposed for replacement are clearly marked with green numbers. This new attachment is called "83-high-street-barkway-exterior-photographs-revised.pdf"
3. Schnauber does not make a printed brochure of its window types, but they did previously share photos of similar windows with vacuum insulated glass already installed at other heritage properties. I included these photographs in my original application in a document entitled "Schnauber-examples-of-previous-heritiage-approved-installations.pdf". Additional detail can be found on Schnauber's and Passivglas' websites. You can find selective pages from both companies' websites attached in the new document called "Schnauber-Passivglas-website-descriptions.pdf"

Lastly, Schnauber has corrected me that Schnauber vacuum-glazed heritage timber-framed windows do not come with putty application. However, they do incorporate architectural detailing and shape to replicate the appearance of traditional putty lines. Can the name of this application be corrected accordingly?

Please let me know if you require anything else or have any questions. I am at your disposal.

Best wishes,

James
