01 May 2026

Dear Planning Officer

Response by HCC's Growth & Infrastructure Unit to 26/00558/HYA
Land At Pound Farm, Bedford Road, Ickleford, Hertfordshire, SG5 3RS

I am writing in respect of planning obligations sought towards non-transport services to minimise the impact of development on Hertfordshire County Council Services for the local community. Based on the information to date for the development of 230 dwellings (as set out in the tables below), and a 65 one bed C2 care home, we would seek financial contributions towards the following projects:

HOUSES		
Number of Bedrooms	A) Open Market & Shared Ownership	B) Affordable Rent
1	0	0
2	18	23
3	113	14
4+	39	0
Total	170	37

FLATS		
Number of Bedrooms	A) Open Market & Shared Ownership	B) Affordable Rent
1	0	23
2	0	0
3	0	0
4+	0	0
Total	0	23

Trajectory						
Year	2026	2027	2028	2029	2030	2031
Units			50	50	65	65

PLEASE NOTE; If the tenure or mix of dwellings changes, please notify us immediately as this may alter the contributions sought

Primary Education Contribution towards additional primary provision to be delivered locally within Ickleford and/or provision serving the development (£3,299,331 (which includes land costs of £45,628) index linked to BCIS 1Q2024 and BCIS Regional Factor)

Secondary Education Contribution towards the expansion of The Priory Secondary School, Hitchin, and/or provision serving the development (£2,483,066 index linked to BCIS 1Q2024 and BCIS Regional Factor)

Nursery Education Contribution In instances where new primary school provision is required, the equivalent nursery provision should also be provided at the new school. The indicative level of contributions towards Nursery provision which HCC would be seeking from this development are included within the primary education contribution. Nursery provision will be included as part of the delivery of a new School and/or provision serving the development

Childcare Contribution towards increasing the capacity of 0-2-year-old childcare facilities in the North Herts Rural West Family Centre Reporting Locality and/or provision serving the development (£50,229 index linked to BCIS 1Q2024)

Childcare Contribution towards increasing the capacity of 5-11 year old childcare facilities at Ickleford Primary School and/or provision serving the development (£3,150 index linked to BCIS 1Q2024)

Special Educational Needs and Disabilities (SEND) Contribution towards new Severe Learning Difficulty (SLD) special school places (EAST) and/or provision serving the development (£418,807 index linked to BCIS 1Q2024 and BCIS Regional Factor)

The application also includes a special education needs establishment (SEN school).

The county council would note that currently there are children and young people awaiting specialist placements in Hertfordshire who cannot currently access a place. Whilst this proposed school would be an independent school provider, provision such as this can help in meeting the needs of children and young people, particularly those with needs which are difficult to meet in our existing specialist settings. Additional places of this nature align with sufficiency plans in Hertfordshire which acknowledge that the independent school sector has a role to play.

The county council welcomes providers who are willing to work jointly with the local authority to provide provision that meets the needs profile of our young people, providing accessible placements in terms of both the environment and costs being charged. However, it is not a maintained school and therefore whether or not the

county council can place pupils there will depend on the nature of the places on offer and the rates the school will charge. The county council would welcome first refusal on any places for residents of Hertfordshire at a new SEN school and for those places to be charged at a reasonable rate. This is to ensure that places are provided for the benefit of Hertfordshire residents. It would be useful for the county council to understand what the average cost of a placement at this location would be.

We would also expect the building to be BB104 compliant.

The county council would welcome a conversation regarding the on site SEN proposal to consider how this proposal will work for Hertfordshire residents and how this provision relates to the SEND off-site contribution request and the need for appropriate and proportionate SEND mitigation for this Development.

Library Service Contribution towards increasing the capacity of Hitchin Library and/or provision serving the development (£69,345 index linked to BCIS 1Q2024)

Youth Service Contribution towards increasing capacity through resource requirements to support the delivery of youth work with young people in the area and/or provision serving the development (£34,069 index linked to BCIS 1Q2024)

Waste Service:

Recycling Centre Contribution towards increasing capacity at Letchworth Recycling Centre or a new recycling centre in Baldock and/or provision serving the development (£44,525 index linked to BCIS 1Q2024)

Transfer Station Contribution towards increasing capacity through the new Northern Transfer Station and/or provision serving the development (£62,268 index linked to BCIS 1Q2024)

Fire and Rescue Service Contribution towards increasing capacity through the provision of new appliances and/or equipment necessary to support additional fire and rescue service delivery at Hitchin Fire Station and/or provision serving the development (£6,378 index linked to BCIS 1Q2024)

Monitoring Fees – HCC will charge monitoring fees. These will be based on the number of triggers within each legal agreement with each distinct trigger point attracting a charge of £420 (adjusted for inflation against RPI January 2024). For further information on monitoring fees please see section 5.5 of the Guide to Developer Infrastructure Contributions.

Adult Care Services has provided a response letter which is submitted with this letter.

The CIL Regulations discourage the use of formulae to calculate contributions however, the County Council is not able to adopt a CIL charge itself. Accordingly, in areas where a CIL charge has not been introduced to date, planning obligations in their restricted form are the only route to address the impact of a development. In

instances where a development is not large enough to require on site provision but is large enough to generate an impact on a particular service, an evidenced mechanism is needed to form the basis of any planning obligation sought. HCC views the calculations and figures set out within the Guide to Developer Infrastructure Contributions as an appropriate methodology for the obligations sought in this instance.

The county council methodology provides the certainty of identified contribution figures based on either a known or estimated dwelling mix, the latter of which might be agreed with the local planning authority based on expected types and tenures set out as part of the local plan evidence base. This ensures the contributions are appropriate to the development and thereby meet the third test of Regulation 122 of the Community Infrastructure Levy Regulations 2010 (amended 2019): “fairly and reasonably relates in scale and kind to the development”.

Outline applications will require the ability for an applicant to recalculate contributions at the point of a reserved matters application and as such a calculation Table will be provided as part of the S106 drafting process. This approach provides the certainty of identified contribution figures with the flexibility for an applicant/developer to amend the dwelling mix at a later stage and the financial contribution to be calculated accordingly.

Please note that current service information for the local area may change over time and projects to improve capacity may evolve. This may potentially mean a contribution towards other services could be required at the time any application is received in respect of this site.

Justification

The above figures have been calculated using the amounts and approach set out within the Guide to Developer Infrastructure Contributions (Hertfordshire County Council's requirements) document, which was approved by Hertfordshire County Council's Cabinet 12 July 2021 and is available via the following link: [Planning obligations and developer infrastructure contributions | Hertfordshire County Council](#)

In respect of Regulation 122 of the CIL Regulations 2010 (amended 2019), the planning obligations sought from this proposal are:

(i) Necessary to make the development acceptable in planning terms.

Recognition that contributions should be made to mitigate the impact of development are set out in planning related policy documents. The NPPF states “Local planning authorities should consider whether otherwise unacceptable development could be made acceptable through the use of conditions or planning obligations.” Conditions cannot be used cover the payment of financial contributions to mitigate the impact of a development. The NPPG states “No payment of money or other consideration can be positively required when granting planning permission.” The development plan background supports the provision of planning contributions. The provision of community facilities is a matter that is relevant to planning. The

contributions sought will ensure that additional needs brought on by the development are met.

(ii) Directly related to the development.

The occupiers of new residential developments will have an additional impact upon local services. The financial contributions sought towards the above services are based on the size, type and tenure of the individual dwellings comprising this development following consultation with the Service providers and will only be used towards services and facilities serving the locality of the proposed development and therefore, for the benefit of the development's occupants.

(iii) Fairly and reasonably related in scale and kind to the development.

The above financial contributions have been calculated according to the size, type and tenure of each individual dwelling comprising the proposed development (based on the person yield).

PLEASE NOTE THE FOLLOWING:

Consult the Hertfordshire Fire and Rescue Service Water Officer directly at water@hertfordshire.gov.uk, who may request the provision of fire hydrants through a planning condition.

I would be grateful if you would keep me informed about the progress of this application so that either instruction for a planning obligation can be given promptly if your authority is minded to grant consent or, in the event of an appeal, information can be submitted in support of the requested financial contributions and provisions. Should you require any further information please contact the Growth & Infrastructure Unit.

Yours faithfully

Xavier Preston
Senior Planning Officer
