

Re: Spindle Cottage, Hitchin Road, Preston - Application No 26/00941/LBC

I confirm that I agree with this amended description of works: "Install commemorative plaque to front elevation"

The heritage plaque is 460 mm in diameter. Finish/material: Cast aluminium, blue ground, white lettering. Fixing method: concealed fixings into mortar joints, with no drilling into brickwork. The font: classical Roman serif (Trajan-style).

The plaque will be installed on the front elevation of Spindle Cottage facing Hitchin Road. The centre of the plaque will be approximately 1.8 metres above ground level. It is located equidistant between a window and the front door.
